

Chapter 2: Working with Others: Interpersonal, Intercultural, and Team Communication

LECTURE OUTLINE

STUDY QUESTIONS

SQ1 What listening skills will help you communicate better with others?

- Hearing accurately
- Comprehending and interpreting
- Evaluating
- Responding

SQ2 How can you help others listen well when you speak?

- Focus on your audience
- Share the conversation
- Use clear, concrete, unambiguous language
- Support your message with good nonverbal communication
- Avoid language that triggers a negative response
- Frame negative comments positively

SQ3 How can you manage interpersonal conflict?

- Identify the cause of the conflict
- Select an appropriate management technique

SQ4 How can you improve your communication with people from different cultures?

- Understand how cultures differ
- Develop strategies that help you communicate with diverse groups

SQ5 How can you work effectively as part of a team?

- Assemble an effective team
- Agree on team goals and standards
- Pay attention to team development and dynamics
- Develop good leadership practices
- Plan for effective meetings
- Be a good team member

INTRODUCTION

Teaching Tip: This chapter covers many topics that will be useful throughout the course. If you want to introduce all the material in one week, you may spend your class time this way:

Class (or hour) 1: Listening and speaking

Class (or hour) 2: Communicating with people from other cultures

Class (or hour) 3: Working as a team and managing conflict

- Working in both large and small companies requires interaction with many people
- Your ability to work well with others depends on your interpersonal communication skills
- This chapter teaches you how to be an effective listener and speaker and how to apply those skills to three challenging contexts in the workplace:
 - managing conflict
 - communicating with people from diverse cultures
 - communicating in teams

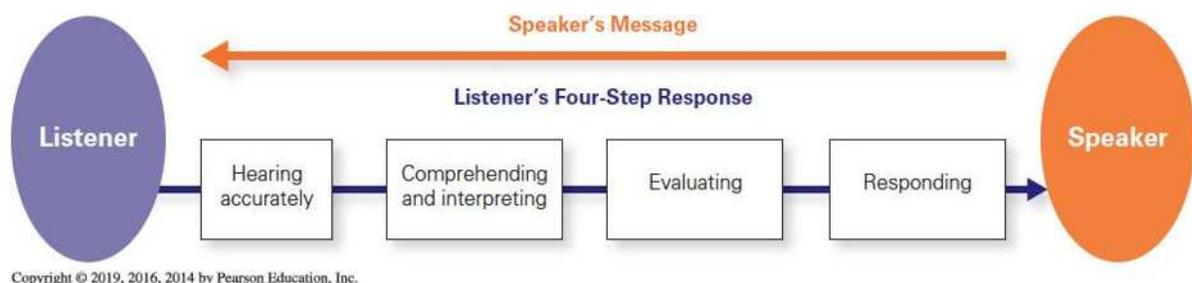

STUDY QUESTION 1 What listening skills will help you communicate better with others?

Teaching Tip: To help students become better listeners, spend a few minutes each week on listening exercises, like those provided in the IM.

Social Media in Action: Social media gives companies new ways to listen to customers, understand their feelings about the company, and identify issues. But listening on the Internet is also a challenge because there is so much noise in the social media world and so many places where customers' voices may be heard. Nestor Portillo of Microsoft talks about how his company developed an integrated listening strategy to "harvest data from different sources to analyze conversations to see which are the top issues and what are the early warning signals." (Listening in the Social Media Era, <http://vimeo.com/4772543>.) Portillo's insights provide a way to start a discussion about what listening means in a social media era.

- Listening is the most frequently used communication skill for new employees in the workplace
- Research shows that people typically listen at only 25 percent efficiency
- Listening is a key component of **emotional intelligence**, the ability to perceive and understand emotions and to use that knowledge as a guide to behavior
- **Passive listening** is hearing what someone says without actively paying attention to ensure understanding
- **Active listening** is a process of focusing attentively on what a speaker says, actively working to understand and interpret the content, and then responding to acknowledge understanding. **FIGURE 2.1** illustrates active listening. Four types of active listening skills are:
 - hearing accurately
 - comprehending and interpreting
 - evaluating
 - responding

FIGURE 2.1 The Active Listening Process

- Active listening is especially important in **synchronous communication**, where all parties are present at the same time:
 - face-to-face conversations
 - telephone conversations
 - meetings

Discussion Starter: What barriers to listening have you experienced in the workplace or in the classroom? How have you overcome them?

Hearing accurately (see Key Concept Exercise 1)

- Some barriers to hearing are physiological; for example, the speed at which your brain can process what you hear
- Some barriers are environmental; for example, a noisy office or work area
- The key to hearing accurately is focus

Discussion Starter: In what ways has texting become a barrier to hearing and listening?

Comprehending and interpreting (see Key Concept Exercises 2, 3, and 4)

- **Comprehension**—how well you understand what you hear or read
- **Interpretation**—analyzing the meaning of what you hear, read, or see to determine its intention
- “Listen” to nonverbal communication
 - **Nonverbal communication**—messages conveyed through means other than words; for example, emphasis and tone of voice, facial expressions, gestures, posture, body language, and behavior
 - **FIGURE 2.2** illustrates that nonverbal signals can have multiple meanings

FIGURE 2.2 How to Interpret Nonverbal Signals in Context

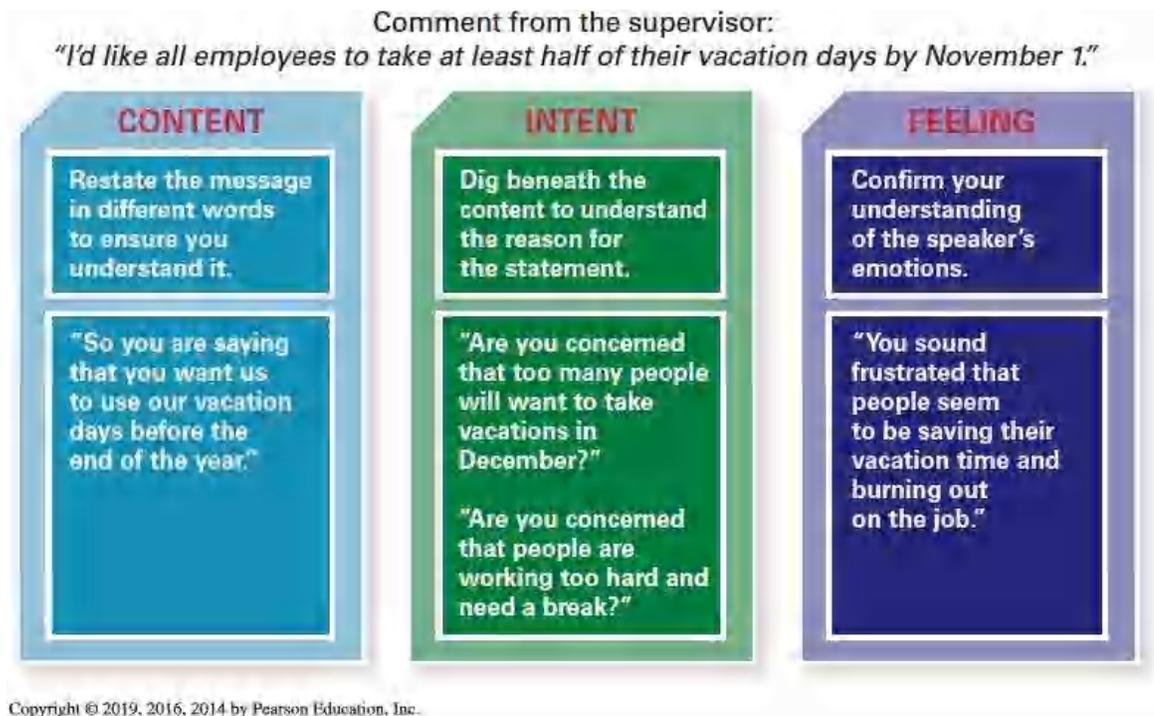

NONVERBAL SIGNAL	MEANING COMMUNICATED IN IMAGE A	MEANING COMMUNICATED IN IMAGE B
Leaning forward	Openness	Hostility
Eye contact	Friendliness	Anger
Extended hands	Welcome	Accusation, frustration
Chin forward	Greeting, openness	Irritation

Copyright © 2019, 2016, 2014 by Pearson Education, Inc.

- Ask questions and paraphrase to ensure understanding
 - **Paraphrasing**—restating someone’s point in different words
 - **FIGURE 2.3** shows that you can paraphrase for content, intent, and feeling

FIGURE 2.3 How to Paraphrase for Content, Intent, and Feeling

- Be aware of gender-specific communication styles
 - Men and women often develop different gender-related styles of communication
 - Men tend to interrupt more than women do, and women tend to minimize their assertiveness by using hedges, hesitations, and tag questions
 - Recognizing gendered characteristics of your own and others' language helps avoid incorrect conclusions and communication breakdowns

Supplemental Homework: See the end of this IM chapter for the supplemental homework assignment titled *Analyzing Nonverbal Communication*.

Supplemental Homework: See the end of this IM chapter for supplemental homework assignment titled *Observing Gender-Specific Communication Styles*.

CULTURE

FACIAL EXPRESSIONS ARE NOT UNIVERSAL

(See Collaboration Exercise 30)

- People from Eastern cultures tend to focus on a person's eyes when reading facial expressions, while people from Western cultures tend to focus on a person's entire face
- Emoticons, used to represent facial expressions in email, reflect these cultural differences (see visual)
- Why is it important to be aware of cultural differences in perception of body language in business communication?

Objectively evaluating (see Key Concept Exercise 5)

- **Evaluating**—the practice of critically reviewing and judging communication
- Making good business decisions depends on your ability to evaluate what you hear
- Evaluating *fairly* requires being open-minded and separating emotions from logic

Discussion Starter: How is evaluating what you hear in a face-to-face conversation different from evaluating what you read in a written document?

Responding (see Key Concept Exercise 6)

- Responding has two roles in the listening process: letting the speaker know you understand the point and initiating the next step in the conversation
- Responses can be verbal and nonverbal
- **FIGURE 2.4** outlines five different ways to respond to a speaker

FIGURE 2.4 How to Respond in Different Ways

YOUR RESPONSE OPTIONS	
Ask a Question	What do we need to do to get ready? How long do you think it will take?
Give an Opinion	I think if you have most of the documents they will need tomorrow, they can get a good start.
Give Advice	Let's try to reschedule the audit until next week.
Argue/Disagree	Actually, I think we are ready. We have completed everything on the checklist.
Express Empathy	It's nerve-wracking to get everything ready for a major audit. You're doing fine, and I'll be glad to help.

Copyright © 2019, 2016, 2014 by Pearson Education, Inc.

STUDY QUESTION 2 How can you help others listen well when you speak?

Teaching Tip: When you ask students to do speaking exercises like the in-class activities in this chapter, try modeling the activity first with one of the class members (or have two students model it in front of the room). This will help students visualize what they are supposed to be doing in the exercise.

Supplemental Homework: Pick any one of the six speaking strategies identified in this chapter and consciously practice using it during the week. For example, if you have a negative criticism, frame it positively. Write a paragraph (200 words or so) to submit to your instructor, identifying what you did and what you learned about yourself as a speaker.

- Listeners and speakers are partners in the communication process
- This section covers six general speaking strategies

Focus on your audience (see Key Concept Exercise 7)

- Before speaking, analyze your audience by considering their interests, potential listening barriers, questions or objections they may have, and the best way to connect with them

In-class Activity: With a partner in class, have a two-minute conversation about “the most interesting thing you read or learned last week.” For the first minute, one partner focuses on his or her topic and consciously focuses on the other person (the audience), trying to connect with the audience and involve him or her in the conversation. Then switch sides. Share what you learned with the class.

Share the conversation (see Key Concept Exercise 8)

- A good interpersonal communicator will avoid monologues and instead invite the audience to respond or add to the conversation

In-class Activity: With a different partner, repeat the in-class activity listed under “focus on your audience.” However, this time, share the conversation for two minutes. When it’s your turn, speak only one or two sentences, beginning by connecting to what the other person has said. Share what you learned with the class.

Use clear, concrete, unambiguous language (see Key Concept Exercise 9)

- *Ambiguous language* may mean different things to different people
- Pay particular attention to pronouns, replacing them with nouns when necessary

In-class Activity: To help students understand the difference between abstract and concrete language, ask students to take out a piece of paper and sketch what they visualize when they hear these terms: *farm animal, power tool, dessert, accessory, etc.* Ask students to share their sketches and talk about how they visualized each term. Discuss the differences. Then, for any one term, ask students to think of a context in which it is better to use the more abstract term, and a context in which it is better to use a more concrete term.

Support your message with good nonverbal communication (see Key Concept Exercise 10)

- As a speaker, you can use nonverbal communication in three ways to enhance your communication:
 - Use body language and eye contact to engage your audience
 - Use a strong and positive tone of voice

- Use gestures and facial expressions that complement your message

Discussion Starter: *When you communicate by phone, you can't use body language or facial expressions to help convey your message. What other methods could you use to enhance your meaning?*

Teaching Activity: *Start with a simple statement like "Please come in and shut the door" or "Help Jane complete the project." Speak the statement three times, varying its meaning by changing your tone of voice, emphasis, facial expression, and body language. Ask students to determine the meaning of each statement—and to discuss why they reached each conclusion.*

Avoid language that triggers a negative response (see Key Concept Exercise 11)

- Four specific types of language that can cause a negative response are:
 - *Biased language* suggests prejudice, prejudgment, or disrespect
 - *Provocative questions* are designed to annoy and inflame
 - *Accusatory language* focuses negative attention on the person rather than on the issue
 - *Trigger words and phrases* elicit immediate negative emotional responses

Frame negative comments positively (see Key Concept Exercise 12)

- Take care in how you phrase constructive criticism to a coworker or employee
- Start out positively

STUDY QUESTION 3 How can you manage interpersonal conflict?

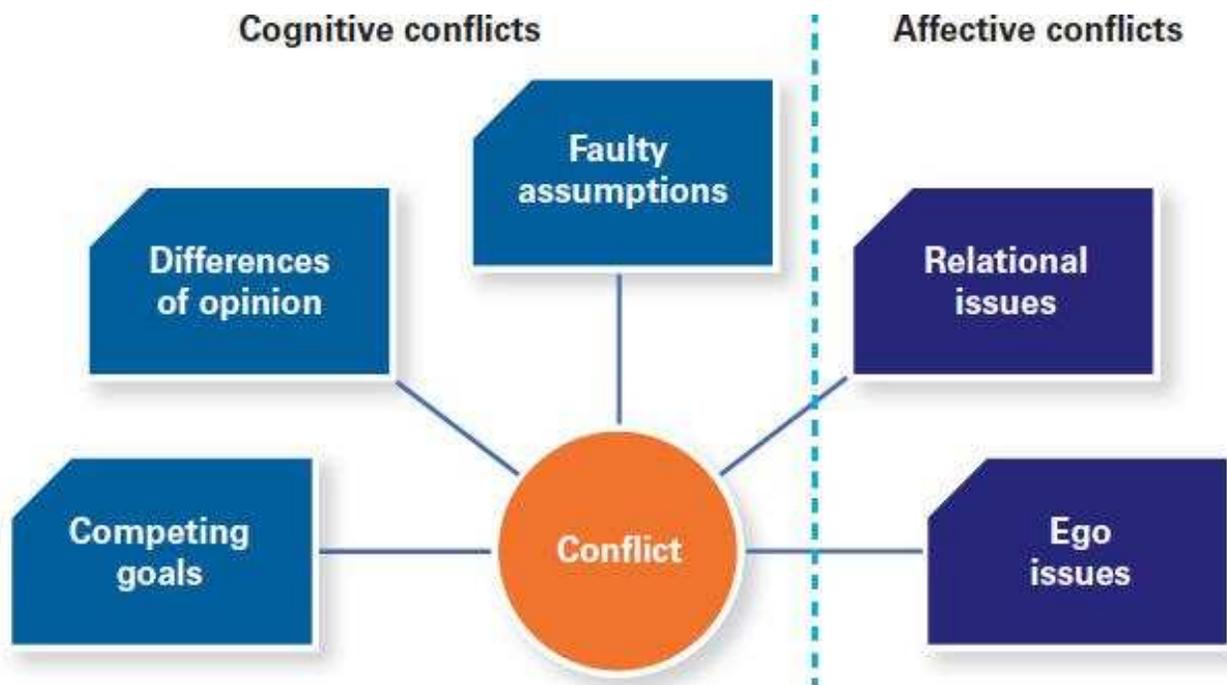

Teaching Tip: If there are any current conflicts at your school, in your local community, or in national politics, ask students to read a bit about the conflict and spend time in class facilitating a discussion about the cause of the conflict. Have the students suggest management techniques that might be effective.

- **Conflict** is one of the most significant and costly problems in a workplace, but not all workplace conflict is bad
- **Cognitive conflict** results in differences in understanding content and tasks; working through such conflict often leads to better decisions and work products
- **Affective conflict** results in differences in personalities and relationships; if unaddressed, it can lead to tension, stress, and dysfunctional work processes
- **Conflict management** is a more helpful term than **conflict resolution** because it recognizes that some conflicts cannot be resolved

Identify the cause of the conflict (see Key Concept Exercise 13)

- **FIGURE 2.5** illustrates the causes of cognitive and affective conflicts

FIGURE 2.5 Causes of Conflict

Copyright © 2019, 2016, 2014 by Pearson Education, Inc.

- Competing goals
 - Successful businesses work toward a number of goals that sometimes compete with each other
- Differences of opinion
 - Best resolved by a rational decision-making process, which may involve compromise

- Faulty assumptions
 - People often draw conclusions or make decisions based on faulty assumptions
 - Avoid this conflict by sharing information with each other
- Relational issues
 - Relational and personality conflicts can stand in the way of productivity and are costly to businesses
 - Explore ways to resolve such conflicts, seeking help from managers if necessary
- Ego issues
 - Threaten someone's sense of professional identity or self-image

***Discussion Starter:** If it's true that "we like those most who are most like us," should managers strive to keep the members of a group similar to avoid conflict?*

***Teaching Activity:** Invite a speaker from your campus counseling service to discuss or role play the types of conflicts commonly experienced, and suggest how to manage those conflicts.*

Select an appropriate management technique (see Key Concept Exercise 14)

- FIGURE 2.6 illustrates five different techniques for managing conflicts

FIGURE 2.6 How to Select an Appropriate Management Technique

TECHNIQUE	USE THIS TECHNIQUE WHEN...	AVOID THIS TECHNIQUE WHEN...	EXAMPLE
<p>Avoid confrontation Deny the problem exists, change the topic, screen your telephone calls, or avoid the person completely.</p>	<p>you believe you have no chance of resolving the conflict and the conflict does not interfere with productivity.</p>	<p>you have any other alternatives. Problems that are not addressed tend to get worse.</p>	<p>Nicola and Brian (introduced on page 49) used this technique, and it was not effective. Because of an ego conflict, they avoided personal interaction. If they continue to avoid each other and communicate only by email, they will have no opportunity to develop shared goals; ultimately, the customers will suffer.</p>
<p>Accommodate or give in Allow the other person to have his or her own way.</p>	<ul style="list-style-type: none"> you decide that your position was wrong. the conflict is trivial. you are beginning to sacrifice something less important to gain something you want more. maintaining a harmonious relationship is more important than the outcome of the issue. 	<p>accommodation means sacrificing your principles and beliefs. Such accommodation can lead to loss of self-esteem or groupthink. Groupthink is a practice of achieving unanimity by eliminating all critical thinking that threatens consensus. A groupthink approach to eliminating conflict can lead a group to ignore differing opinions that may be valuable.</p>	<p>Imagine you are on a marketing team with people of diverse backgrounds. Your team's goal is to generate cutting-edge marketing ideas for a new product. During the first brainstorming session, many ideas come up. But as soon as the marketing manager endorses one idea, everyone agrees with him. You think a different idea might work better, but don't want to be the only dissenting voice. To show that you "fit with the company," you "go along to get along." This is an example of groupthink that may cause the team to settle on a solution that is wrong, or may sacrifice creativity and innovation.⁴¹</p>
<p>Compete to win Turn the conflict into a contest with a winner and loser, often determined by a third party. Use competitive tactics to win the advantage; find fault, assign blame, or reject others' point of view.</p>	<ul style="list-style-type: none"> a quick resolution is needed or demanded and compromise isn't possible. a third party, such as a supervisor, CEO, or board of directors—is available to decide the issue. 	<p>a more collaborative strategy or compromise is possible, since competition can lead to relational conflicts.</p>	<p>Marcus and Allison of Green Earth (introduced on page 47) bring their conflict to the president of the company to decide which goal to prioritize: keeping customers happy or keeping costs down. The president decides to accommodate current customers. This decision gives Marcus and Allison a clear direction, but they still need to work out the personal anger that has developed between them.</p>
<p>Compromise Approach the problem cooperatively so that all the parties involved get something they want or can accept, but everyone also sacrifices.</p>	<ul style="list-style-type: none"> a quick resolution is needed or demanded. people have differences of opinion or competing goals, and a compromise allows each to be partially satisfied. 	<p>the outcome will fail to adequately resolve the conflict or achieve the ultimate goal.</p>	<p>Valerie and Corina of Roto Plumbing (introduced on page 47) need to present a budget to the board of directors the next day, even though they continue to have differences of opinion: Should they invest in marketing or distribution? They reach a compromise and create budgets for two smaller projects—one on marketing and another on distribution. Neither gets everything she wants, but this solution offers several benefits: Each gets part of what she wants, they are able to present a united front at the board of directors meeting, and they will gather data from the two projects that may help them resolve their difference of opinion.</p>
<p>Collaborate Work with all parties to determine the best possible solution.</p>	<p>collaboration is possible. This is the best approach for managing complex conflicts in the absence of pressing deadlines. Collaboration has the benefit not only of providing a solution but also ensuring buy-in from all parties and strengthening the relationships among people.</p>	<p>an immediate resolution is needed, because collaboration is a time-consuming process.</p>	<p>Marcus and Allison of Green Earth realize they will not be able to easily resolve their conflict because their supervisors gave them conflicting requirements. Although they could individually talk to their supervisors, they decide to work together to find a solution in the best interest of the company. Perhaps the company could charge more for rush jobs, give clients the option of paying a retainer to leave space on the Green Earth schedule, or develop a new procedure for calculating revenues versus overtime costs. Marcus and Allison then present these collaborative solutions in a meeting with their two supervisors.</p>

Copyright © 2013, 2016, 2014 by Pearson Education, Inc.

- **Avoid confrontation**
 - Sometimes avoidance is a good choice; for example, if you believe there is no chance of resolving the conflict and it does not interfere with production
 - Most often, avoiding conflict makes it worse
- **Accommodate or give in**
 - Accommodating is a wise choice when:
 - you decide that your position was wrong
 - the conflict is trivial and you don't care about the result
 - you are negotiating; sacrifice something less important to gain something you want more
 - you believe that maintaining a good relationship with the other person is more important than the outcome of the issue
 - Accommodating is dangerous if it means sacrificing your principles and beliefs
 - **Groupthink** is a process by which a group reaches a decision by eliminating all critical thinking that threatens consensus
- **Compete to win**
 - May result in quick solutions
 - Needs a third party with authority to decide the issue
 - Often leads to relational conflicts, especially when the following tactics are used:
 - rejecting others' points of view
 - finding fault
 - assigning blame
- **Compromise**
 - Offers a quick resolution to the issue
 - Allows parties with competing goals or differences of opinion to be partially satisfied
 - May fail to adequately resolve the conflict or achieve the ultimate goal
- **Collaborate to find the best solution**
 - Requires that all parties work together to determine the best possible solution
 - Time-consuming
 - When possible, this is the best approach for managing complex conflicts when time is not an issue
- When you decide to address the conflict:
 - Act promptly
 - Meet in person at a neutral location
 - Formalized the solution
 - Set a date for follow-up

***Discussion Starter:** When involved in an affective conflict, why is it important to address emotional issues before addressing issues about the content of work? What are potential consequences if you don't?*

***Teaching Activity:** Invite a guest speaker from a local labor union or an HR representative who works with union negotiations to speak to the class about negotiation techniques. How do people resolve business differences?*

TECHNOLOGY

INTERGENERATIONAL CONFLICTS OVER TECHNOLOGY

(See Writing Exercise 25)

Why can intergenerational communication be a source of conflict?

- Younger workers tend to adopt and learn new technology easily, while older workers may be more cautious about adopting new technology

What differences exist between generations in their use of social media?

- 50 percent of people born between 1946 and 1964 use social media
- 73 percent of people born between 1965 and 1980 use social media
- 89 percent of people born after 1980 use social media
(Pew Research Center study)

How can employees prevent or resolve conflicts over technology?

- Better communication can prevent unnecessary friction
 - Advocates for new technology can build support and deflect negative responses by making a formal proposal before introducing a new tool
 - Employees with reservations or concerns can explain the reasons behind their objections, and articulate any assumptions that newer employees may not know
-

STUDY QUESTION 4 How can you improve your communication with people from different cultures?

Teaching Tip: Depending on where you teach, you may have students in your class who have experience with other cultures based on where they have lived, where they have traveled, or what their own ethnic background is. Offer opportunities for these students to provide insights and tell stories that can help others in the class.

- **Culture**—the learned and shared attitudes, values, and behaviors that characterize a group of people
- Prepare to communicate with people from other cultures by understanding the key ways that cultures differ and by developing strategies that help you communicate with diverse groups

Understand how cultures differ (see Key Concept Exercise 15)

- **Ethnocentrism**—an inappropriate belief that your culture is superior to all others
- **Stereotypes**—oversimplified images or generalizations of a group
- **High context versus low context**
 - **Context**—a term that refers to how people in a culture deliver, receive, and interpret messages
 - Countries exist on a continuum from high context to low context (see **FIGURE 2.7**)

FIGURE 2.7 Continuum of Low- to High-Context Cultures

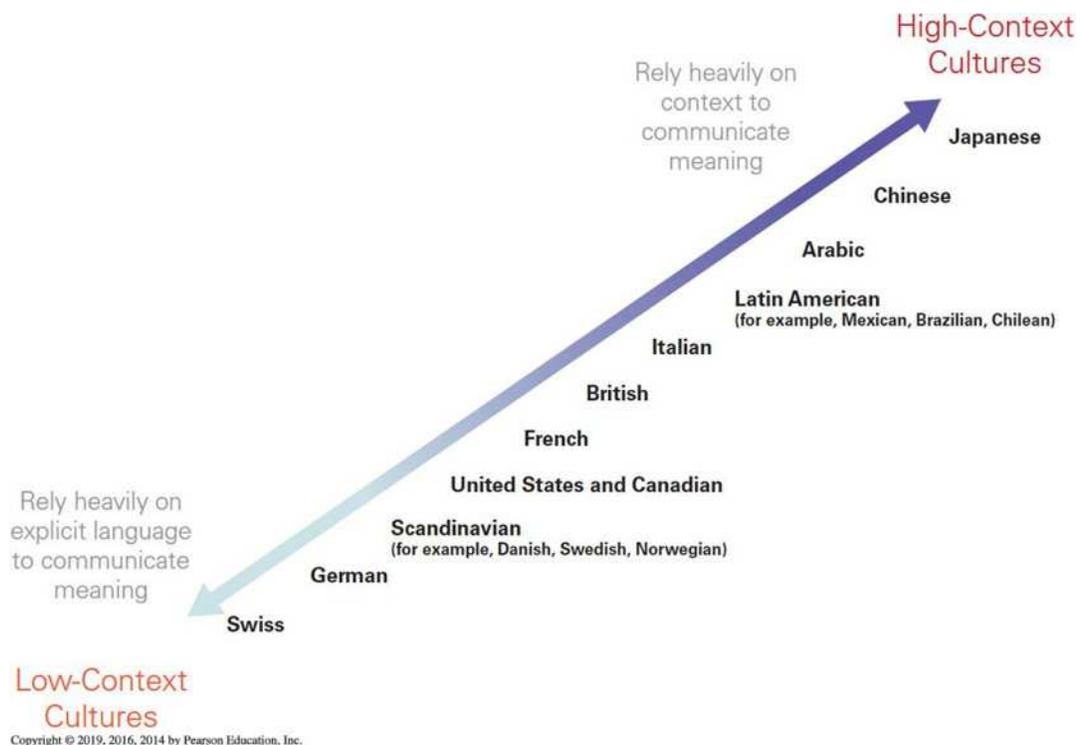

FIGURE 2.7

- *Low-context cultures* rely on explicit language to communicate
- *High-context cultures* derive meaning not just from words but from everything surrounding the words

- **Individualism versus collectivism**
 - Key dimension of culture identified by Dutch intercultural expert Geert Hofstede
 - **Individualist culture**—values an individual’s achievement, satisfaction, and independent thinking
 - **Collectivist culture**—puts the good of the group or organization before people’s individual interests
 - In collectivist cultures, great importance is put on **face**, the position or standing that a person has in the eyes of others
- **Power distance**
 - **Power distance**—a characteristic of cultures that describes how the culture perceives inequality and authority
 - In cultures with *high* power distance, organizations are formal and have a clear separation between superiors and subordinates
 - In cultures with *low* power distance, organizations are more relaxed about title and status
- **Uncertainty avoidance**
 - **Uncertainty avoidance**—a measure of how comfortable a culture is with ambiguity, risk, and change
 - In cultures that are *uncomfortable* with uncertainty and ambiguity, employees tend to like clear guidelines that lead to predictable results
 - In cultures that are *comfortable* with uncertainty and ambiguity, employees tend to like flexible working environments that allow for risk-taking and entrepreneurial behavior
- **Time orientation**
 - **Monochronic culture**—values punctuality and efficiency
 - **Polychronic culture**—has a relaxed attitude toward time and punctuality
 - Understanding the different approaches to time is crucial to maintaining smooth cross-cultural relationships

Teaching Activity: Assign students to research your campus’s study abroad program, or invite someone from the program to class to discuss international opportunities and offer information to broaden students’ multicultural experiences.

Develop strategies that help you communicate with diverse groups (see Key Concept Exercise 16)

FIGURE 2.8 presents verbal and nonverbal strategies

- Nonverbal strategies
 - Do:
 - pay attention to the other person’s nonverbal communication
 - mirror it when appropriate
 - smile
 - Don’t:
 - ignore or discount details of how people maintain eye contact, shake hands, or stand when talking
 - presume that an unsmiling face will be taken more seriously
- Verbal strategies
 - Do:
 - be clear and concise
 - listen carefully
 - request feedback to ensure understanding
 - Don’t:

- use **idioms**, expressions that mean something other than the literal meaning of its words
- use **jargon**, the specialized language of a specific field
- get distracted by differences in accent and dialect
- assume that smiles and nods mean that what you are saying has been understood
- Both
 - Do:
 - exhibit formality and respect
 - apologize sincerely if you inadvertently offend or confuse your audience
 - Don't:
 - assume that decorous behavior means someone is being impersonal or distant
 - attempt humor
 - pretend that nothing happened or blame your audience if you make a mistake

FIGURE 2.8 How to Communicate with Diverse Groups

CATEGORY	DO	DON'T
Nonverbal Communication	<p>Pay attention to the other person's nonverbal communication and, when appropriate, mirror it. If you are doing business with someone from another culture, pay attention to how that person acts. For example, in the United States, a comfortable conversational distance ranges from 2 to 4 feet; in the Middle East, the distance may be less than 1 foot.⁶⁹ By observing and learning, you can avoid cultural mistakes.</p> <p>Smile. Look like you are friendly, open, and willing to communicate.</p>	<ul style="list-style-type: none"> ▪ Ignore or discount how people from other cultures maintain eye contact, shake hands, or stand when talking. ▪ Presume that an unsmiling countenance will be taken more seriously.
Verbal Communication	<p>Be clear and concise. Remember to talk relatively slowly and pronounce words clearly. To ensure your meaning is understood, also be very specific with your choice of words.</p> <p>Listen carefully. Listen to more than the words to ensure you understand the intended meaning. Listen for tone and emphasis.⁶⁹</p> <p>Request feedback to ensure understanding. Ask friendly questions that encourage people to give you verbal feedback so you can ensure mutual understanding.</p>	<ul style="list-style-type: none"> ▪ Use idioms, expressions that mean something other than the literal meaning of their words. For example, "drive me up the wall" and "pass with flying colors" are culture-specific and as a result may confuse people from other cultures. ▪ Use jargon, specialized language of a specific field. Even business jargon like "in the red" or "headcount" may be unfamiliar to people from other cultures. ▪ Get distracted by differences in accent and dialect. ▪ Assume that smiles and head nodding mean that people from other cultures understand what you are saying. These nonverbal responses mean different things in different countries.
Both	<p>Exhibit formality and respect. Americans are often less formal than people from European and Eastern cultures. When in doubt, be polite, courteous, and respectful. For example, address people by their last names ("Hello, Ms. Tsai") until they ask you to call them by their first names ("Hi, Fu-Nien").</p>	<ul style="list-style-type: none"> ▪ Assume that people from other cultures are impersonal and distant, as they may be behaving with decorum appropriate to their culture. ▪ Attempt humor, since humor often doesn't translate across cultures.
	<p>Apologize sincerely if your inadvertently offend or confuse your audience. Occasional misunderstanding is inevitable in cross-cultural communication. Taking responsibility for miscommunication helps your audience save face. If you do offend or confuse your audience, explain and be open to learning to avoid future missteps.</p>	<ul style="list-style-type: none"> ▪ Pretend that nothing happened or blame your audience for being overly sensitive.

Copyright © 2019, 2016, 2014 by Pearson Education, Inc.

Discussion Starter: How might social media help you to learn about communicating with people from different cultures?

ETHICS

THE ETHICS OF GUANXI

(See Key Concept Exercise 17)

- **Guanxi** refers to a network of long-term, mutually beneficial relationships that promote trust
 - Chinese business tends to rely on guanxi to get business done, especially where a framework of law to regulate business transactions is less well developed
 - Westerners question the ethics of guanxi because close social relationships give insiders an advantage over outsiders
 - Guanxi may lead to corruption
 - Outsiders doing business in China find it difficult to cultivate guanxi, and are advised to hire Chinese representatives
 - The importance of guanxi may diminish as Chinese business becomes more global
 - Guanxi is less pronounced in Internet-based businesses
-

STUDY QUESTION 5 How can you work effectively as part of a team?

Teaching Tip: Provide opportunities in the class for students to work as a team and to reflect on that experience. Reflection is an important tool to help students learn from their experiences.

Discussion Starter: If you experience group conflict but need to meet a pressing deadline, which should you prioritize: resolving the conflict or meeting the deadline? Why?

- In workplace environments, your work with others will often be accomplished in teams
- To be effective, a **team** involves two or more people who recognize and share a commitment to a specific, common goal and who collaborate in their efforts to achieve that goal

Assemble an effective team (see Key Concept Exercise 18)

- To assemble strong team members, consider the following questions and strategies:
 - How big should my team be?
 - Create teams of three to five people, which are typically more productive than larger teams
 - Appoint an odd number of people
 - Break into subteams to complete parts of a project
 - What are the skills needed to complete this team project effectively?
 - Identify the work that needs to be done and the skills necessary for doing it
 - Who has the time and resources to contribute effectively to the team project?
 - Ask colleagues with area expertise to join the team or to recommend a substitute
 - Who may be the most interested in this topic (and therefore motivated to participate)?
 - Consider prior experience and professional development
 - Who knows how to collaborate well?
 - Consider interpersonal skills as well as project-specific skills

In-class Activity: See the end of this IM chapter for the in-class activity entitled Identifying Team Talent.

Agree on team goals and standards (see Key Concept Exercise 19)

- Good teams are *goal-oriented*
- Good teams are *results-oriented*
 - Team members have a clear role and are held accountable for their contributions
 - Workload is divided equitably
 - The team has a timely, effective communication system
 - Team members give each other prompt and helpful feedback on their performance
- Good teams have *standards* and hold each team member accountable for them

Discussion Starter: You've been assigned to a team of four individuals tasked with completing a detailed recommendation report to submit to your company's executive committee. You have two weeks to conduct the research, analyze the data and information, and write the report, in addition to completing your regular responsibilities. Why is it important for your team to take time to establish goals and standards? What are the potential consequences if you don't establish them?

Pay attention to team development and dynamics (see Key Concept Exercise 20)

- **FIGURE 2.9** illustrates a model for understanding team development proposed by Bruce Tuckerman
- What happens at each stage?

- **Forming**—team members get to know each other
- **Storming**—teams experience conflict and begin to confront differences
- **Norming**—team members learn how to manage conflict and work with each other efficiently
- **Performing**—team members work collaboratively and achieve a high level of productivity
- An alternative to Tuckerman’s model, by Amy Edmondson, emphasizes **teaming**: the process of bringing people together for a short period to solve a specific problem
- Teaming requires frequent communication to learn collectively, fix issues quickly, and put the best ideas into action. Recommendations include:
 - ask for help and clarification early and often
 - share information quickly and broadly
 - discuss mistakes
 - try out new strategies and ideas
 - continuously seek out feedback to improve ideas and processes

FIGURE 2.9 Stages of Team Development: What Team Members Do at Each Stage

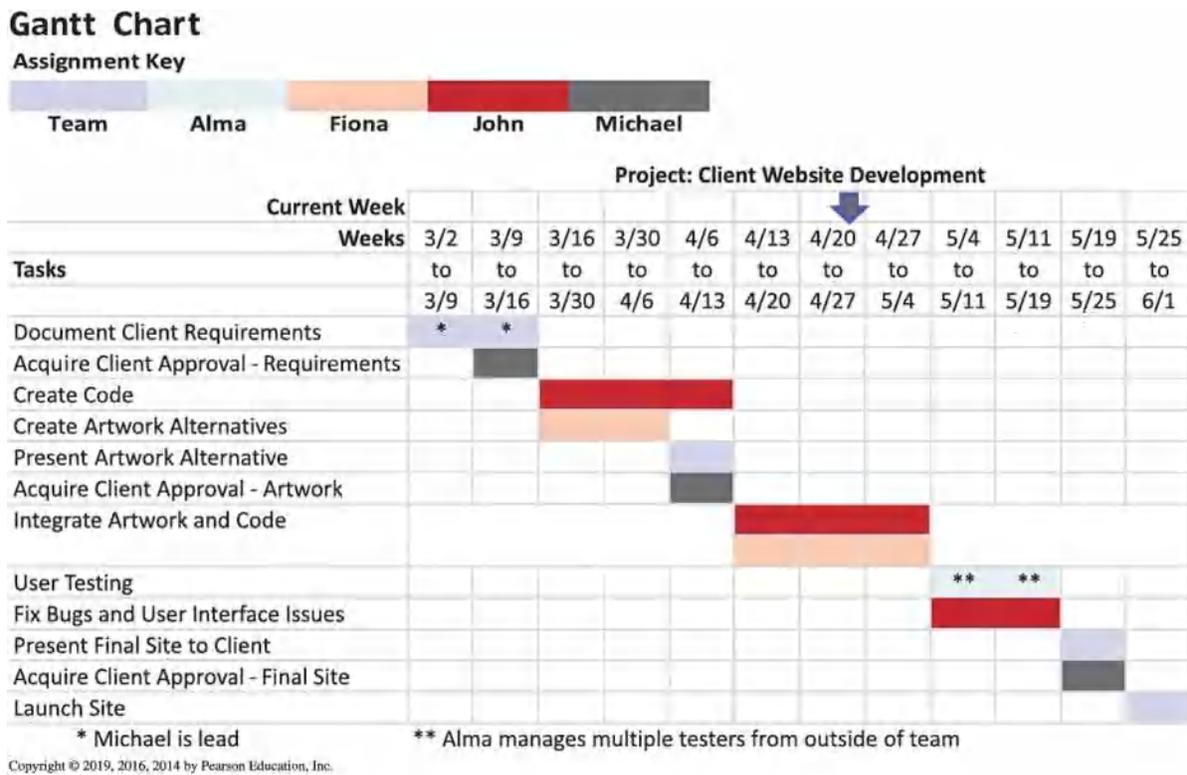

Copyright © 2019, 2016, 2014 by Pearson Education, Inc.

In-class Activity: Ask students to work in small groups to list examples of team conflicts (without identifying names). What caused the problems? How, if at all, did the team resolve them?

Develop good leadership practices (see Key Concept Exercise 21)

- A leader is not in charge of a team but rather in service of a team
- A leader can serve a team in the following ways:
 - Establish and maintain a vision of the future
 - Create a supportive climate
 - Delegate responsibility and assign tasks equitably
 - Establish a timeline, using scheduling tools such as *Gantt charts* (FIGURE 2.10)
 - Keep the project on track
 - Manage meetings effectively and encourage positive collaboration
 - Ensure effective decision making
 - Resolve differences

FIGURE 2.10 Gantt Chart

Plan for effective meetings (see Key Concept Exercise 22)

- Create an agenda
 - **Agenda**—a detailed plan or outline of the items to be discussed at a meeting
 - FIGURE 2.11 illustrates a sample agenda
- Distribute the agenda sufficiently in advance
- Assign someone to serve as a timekeeper during the meeting
- Assign someone to serve as a note taker during the meeting
 - **Meeting minutes**—notes that describe what was discussed at a meeting, what was decided, and what actions will follow
 - FIGURE 2.12 also shows sample minutes of a team meeting
- Plan for follow-up

Discussion Starter: What are the consequences of not using an agenda for a meeting (or distributing a poorly written agenda)?

Discussion Starter: What strategies could you use to ensure that synchronous online meetings with attendees from different regions or countries are run smoothly? What are potential barriers or problems that might arise and how could you overcome them?

FIGURE 2.11 How to Create a Meeting Agenda

agenda

Tuesday, July 31, 20XX
4:00–5:00 PM

MEETING PURPOSE:
To kick off the internship handbook project and develop a six-week plan.

- I. Introductions 5–10 min.
 - a. Jay Macintosh, Intern to Director for Human Resources, Team Leader
 - b. Rachel Ferrera, Intern to Assistant to CEO
 - c. Arnie Glover, Intern to Temp Pool Supervisor
 - d. Roberto Washington, Intern, Web Development Department
- II. Project Overview 10–15 min. – Jay Macintosh
 - a. Brainstorm Initial Ideas for Topic Content
 - b. Assign Responsibilities
- III. Web Development Support 10–15 min. – Roberto Washington
 - a. Discuss Format / Layout Options
 - b. Determine Resource Needs (Materials)
- IV. Six-Week Timeline 10–15 min. – Jay Macintosh
 - a. Meeting Times
 - b. Progress Reports and Submission Schedule
 - c. Interns Who Will Provide Feedback:
 1. Sarah Fernandez, Marketing Department
 2. Paul Mason, Research & Development
 3. Soren Afzabi, Research & Development
 4. Melanie Godfarb, Accounting
- V. Other? 5–10 min.
- VI. Due Next Week: Content Reports

Include the day, time, and place of the meeting at the top of the agenda.

State the purpose of the meeting to keep the discussion on track.

List all the topics to be discussed or all the decisions to be made.

Estimate the amount of time each item will take. Although you may need to be flexible with time during the meeting, the time estimates will help the team get through all the topics efficiently.

Assign each topic to a team member and ensure that all team members have some responsibility during the meeting. If team members are not responsible for anything on the agenda, reconsider whether they need to attend the meeting.

End by looking ahead to due dates or the next meeting.

FIGURE 2.12 How to Create Meeting Minutes

minutes

MINUTES

Online Internship Handbook Team

Human Resources Conference Room
July 31, 20XX

Present: Jay Macintosh, Intern to Director for Human Resources, Team Leader
Rachel Ferrera, Intern to Assistant to CEO
Arnie Glover, Intern for Temp Pool Supervisor
Roberto Washington, Intern, Web Development Department

I. **Introductions:** Jay Macintosh called the meeting to order, introduced himself, and asked the others to state their department, experience, and skills.

II. **Project Overview:** Jay Macintosh explained the project goals. The team brainstormed ideas for topics and assigned content as follows:

- a. Welcome to the Company - Rachel Ferrera
 - 1. History of the Organization
 - 2. Mission / Vision Statements
 - 3. Organizational Chart
 - 4. Your Role as an Intern
- b. Policies and Procedures - Arnie Glover
 - 1. Maintaining Work Hours and Reporting Absences
 - 2. Sending and Responding to Email
 - 3. Logging Telephone Calls
 - 4. Using the Internet
 - 5. Using Social Media
 - 6. Submitting Reimbursement Requests
- c. Human Resources - Jay Macintosh
 - 1. Salary and Payroll Procedures
 - 2. Health Benefits
 - 3. Educational Resources
 - 4. Applying for Permanent Employment

III. **Web Development Support:** Roberto Washington explained company policies about website format, layout, and design options. The team discussed where on the current company website the internship handbook should be located.
Decision: Roberto will check with his supervisor about content and resource needs and report to the team by email before the end of the week.

IV. **Six-Week Timeline: Decisions:**

1. We will meet on Tuesdays from 3–5 PM. Between meetings we will update each other by email.
2. Jay will send our weekly meeting minutes to his supervisor as our progress reports.
3. We will send the completed version of our first draft to the other interns who volunteered for this project to get their feedback by Week 3.
4. We will submit a draft to the Director of Human Resources by Week 4.
5. Roberto will begin putting the material on the web in Week 5.

V. **Next Meeting:** The team will meet on August 7 to discuss the content reports.

Copyright © 2019, 2016, 2014 by Pearson Education, Inc.

minutes

Include the day, time, and place of the meeting at the top of the agenda

Include a list of who attended.

Organize content by categories. If possible, match the agenda

Focus on what the team decided and do not repeat everything that was said.

Include assignments (who agreed to do what) and deadlines (when you agreed to submit deliverables).

End with decisions about the next meeting.

Be a good team member (see Key Concept Exercise 23)

- Make a commitment to the team and its goals
- Create a collaborative working environment
- Support and encourage your teammates

- Support team decisions
 - Focus on continuous quality improvement
-

COLLABORATION

EXTROVERTS AND INTROVERTS: MAKING THE MOST OF YOUR DIFFERENCES

(See Writing Exercise 24)

Why do extroverts and introverts sometimes have difficulty working together?

- Extroverts become energized around people, while introverts prefer to work in quiet on their own
- Extroverts share easily and publicly; introverts may prefer to develop ideas thoroughly before sharing
- American business culture favors extroverted models of communication and leadership
- Introverts may have their contributions overlooked, or be encouraged to become more like extroverts
- Extroverts sometimes inhibit others from speaking up

Why do successful teams need both extroverts and introverts?

- Research suggests that teams with both types are more cohesive and effective
 - Extroverted leaders can motivate people who are more passive or need direction
 - Introverted leaders may be more open to accepting input, and better at making contributors feel valued
-

IN SUMMARY,

- The interpersonal skills you learned in this chapter span basic listening and speaking skills to the more complex skills of emotional intelligence, managing conflict, working with people from other cultures, and working well in teams
 - Throughout this course, you will apply these skills both in the classroom and within team projects
-

Teaching Tip: The end-of-chapter Case Scenario, Working as a Cross-Cultural Team, p. 65, will help students apply the material in this chapter.

SUPPORTING MULTIPLE TEAMS @ WORK: Design for America

The leaders of a student organization share insights for communicating effectively with many teams in different locations. The prompts encourage students to apply the insights to their own experiences, and reflect on the factors that make distributed communication effective or ineffective. (SQ1; SQ2; AACSB Tags: Written and Oral Communication; Interpersonal Relations and Teamwork; Reflective Thinking)

- **DISCUSSION QUESTION 1:** What campus organizations are you affiliated with? Are any of these organizations part of a larger one? How effectively does the local organization communicate with its members? How well does the national organization coordinate with local groups? What are specific communications that you think the organization has managed well or poorly?
Possible answers: Answers will vary based on experience, but thoughtful responses will give specific and detailed examples of good and bad communication.
- **DISCUSSION QUESTION 2:** Design for America uses multiple channels of communication, and relies on making a good first impression to build strong connections with the studios around the country. Give an example of a time when you needed to make a good first impression via phone or email. What did you do? Give an example of how a company, not-for-profit organization, or other group made a good or bad first impression on you via social media. Why was your impression favorable or unfavorable?
Possible answers: Students should come up with their own detailed and specific reasons why making a strong and positive first impression is both difficult and important.
- **Supplementary Reflection Exercise**
Which of the specific tools used by Design for America to communicate with their studios are you familiar with? How successful have you been in reaching others through these tools, perhaps as a leader in a campus organization? How well do these tools work when others use them to engage your attention and participation?
Possible answers: Answers will vary based on experience, but thoughtful answers will include specific details. Students can be encouraged to compare their experiences with others to identify common patterns and shared concerns.

CASE SCENARIO: Working as a Cross-Cultural Team

This case study includes six questions. If evaluating for points, consider attributing points to each element of the answer as well as the students' writing style and grammar/mechanics.

QUESTION 1: What interpersonal, intercultural, and teamwork communication issues are emerging in this scenario? (SQ3; SQ4; SQ5; AACSB Tags: Written and Oral Communication; Diverse and Multicultural Work Environments; Interpersonal Relations and Teamwork)

SAMPLE ANSWERS:

Interpersonal issues

- The resistance to schedule early/late times could have created a negative interpersonal situation.
- Maansi's silence could be interpreted negatively. By listening to nonverbal communication, the team could have improved their interpersonal communication.

Intercultural

- Before the meeting began, both teams could have researched each other's cultures to better prepare for differences in context, individualism/collectivism, power distance, etc.

Teamwork communication

- The New Delhi interns' focus on programming should be investigated. Were they asked to participate because of their technology skills? What is their role on the team?
- Both teams could have paraphrased each other's comments to promote understanding.
- Both teams should have requested feedback to ensure understanding.

QUESTION 2: Listening involves a number of specific skills: hearing, comprehending and interpreting, evaluating and responding. Which of these areas contributed to the communication problem in this scenario? Identify specific examples. (SQ1; AACSB Tags: Written and Oral Communication; Diverse and Multicultural Work Environments; Interpersonal Relations and Teamwork)

SAMPLE ANSWERS: All of these areas contributed to the communication problem in this scenario:

Hearing: No one asked Anant to repeat what he said, leaving most of what he said unknown.

Comprehending: When the computer programming issues were presented, the Nashville team should have asked the New Delhi team to explain *why* those issues were important to the project.

Interpreting: Both teams should have analyzed the different frames of reference to try to better understand each other's perspective of the project.

Evaluating: There was no subsequent group evaluation of the initial meeting and the Nashville and New Delhi team seemed to have different agendas and understandings of the project.

Responding: Both teams should have requested feedback to ensure understanding.

QUESTION 3: How would you describe the difference between the two approaches to talking with Roberto? Which approach would help Roberto accept the criticism? (SQ2; AACSB Tag: Interpersonal Relations and Teamwork)

SAMPLE ANSWERS:

Option #1 may trigger a negative response and frames the situation in a negative manner. However, Option #2 focuses on Roberto and uses positive language and outcomes.

The second approach would help Roberto accept the criticism and promote an effective collaboration (e.g., Roberto has great ideas, you both want strong evaluations, you want to enjoy working together).

QUESTION 4: Besides accommodating, what specific actions could you take to manage the conflict with Maansi and Anant if you decided to avoid, compete, compromise, or collaborate? Which approach do you believe would lead to the best outcome? (SQ3; AACSB Tag: Interpersonal Relations and Teamwork)

SAMPLE ANSWERS:

Specific actions to manage the conflict include:

Avoid confrontation: You could go ahead with your own agenda and, when complete, send it to Anant and Maansi to program in an online format. This might result in an effective combined project, but the content would reflect only the internship experiences in Nashville, not New Delhi.

Compete to win: You suggest that the New Delhi team work separately and then compare your products at the end of the summer to determine which should be submitted. However, neither project would reflect the needs of both locations.

Compromise: You could suggest that your team draft the content and send it to the New Delhi team mid-way through the time line. The New Delhi interns could then add their own content and focus on the programming aspects of the website. The final week of the project could be devoted to evaluating and revising the final handbook before it is submitted.

Collaborate: As the best approach, both teams would collaborate on both the content and the website design interface. Leadership roles would be divided between the two locations, but all four team members would participate in all aspects of the project to ensure an effective result.

Collaboration is the best approach because it ensures a product that reflects the internship experiences at both locations.

QUESTION 5: What factors may explain the cultural differences between the U.S. and Indian team members? (SQ4; AACSB Tag: Diverse and Multicultural Work Environments)

NOTES: Answers should identify the difference in context and the presentation of ideas and materials, as well as the uncertainty avoidance with respect to workload and priorities.

QUESTION 6: Study Question 5 describes some of the characteristics that successful teams share. This team ultimately was successful. How did it demonstrate these characteristics? (SQ5; AACSB Tag: Interpersonal Relations and Teamwork)

SAMPLE ANSWERS:

- Worked through communication issues by utilizing email correspondence and clear meeting agendas
- Compromised schedules to overcome the time differences and priorities
- Tried to read nonverbal cues during phone conversations
- Requested feedback to ensure understanding

REVIEW QUESTIONS

- 1. Name two barriers that interfere with hearing.** Possible answers include: differences in mental processing speed between speaking and hearing; inattention due to multitasking; temporary hearing loss; noise and other environmental distractions; and other barriers that decrease the listener's focus. (SQ1; AACSB Tag: Written and Oral Communication)
- 2. How does comprehension differ from interpretation?** Comprehension is how well someone understands what he or she hears. Interpretation is more complex, and involves analyzing the meaning of a communication. (SQ1; AACSB Tag: Written and Oral Communication)
- 3. What are three types of paraphrasing?** Paraphrasing consists of restating the literal content, the ultimate intention, or the emotional content of what you have heard. (SQ1; AACSB Tags: Written and Oral Communication; Interpersonal Relations and Teamwork)
- 4. Describe how a person "listens" to nonverbal communication.** One "listens" to nonverbal communication by paying attention to facial expressions, body language, posture, gestures, and behavior. (SQ1; AACSB Tags: Written and Oral Communication; Interpersonal Relations and Teamwork)
- 5. What is the difference between a provocative question and an authentic question?** Authentic questions are used to ask for information, share opinions, and provide confirmation. Provocative questions are used to attack, shame, or blame the target. (SQ2; AACSB Tags: Written and Oral Communication; Interpersonal Relations and Teamwork)
- 6. Under what circumstances is it a good idea to accommodate (or give in) during a conflict?** Possible answers include: if you decide that you are wrong and have changed your mind; if the conflict is trivial or one in which you don't care about the results; or if maintaining a harmonious relationship with the other person is more important than the outcome. (SQ3; AACSB Tag: Interpersonal Relations and Teamwork)
- 7. What is ethnocentrism?** It is the belief that your own culture is superior to others. (SQ4; AACSB Tag: Diverse and Multicultural Work Environments)
- 8. Name one way that an individualistic culture differs from a collectivist culture.** Possible answers include: valuing individual achievement, satisfaction, and independent thinking; considering one's own achievement to be more important than obligation and loyalty to a group; prioritizing individual incentives; rewarding individual leaders for a company's success. (SQ4; AACSB Tag: Diverse and Multicultural Work Environments)
- 9. What are the four stages of team formation?** The four stages are forming, storming, norming, and performing. (SQ5; AACSB Tag: Interpersonal Relations and Teamwork)
- 10. Describe two ways that file-sharing tools such as Google Docs help teams collaborate.** Possible answers include: automatic versioning to track changes in documents; real-time distributed authorship and review of documents; availability of resources from multiple locations and devices; rapid access to updated materials. (SQ5; AACSB Tags: Written and Oral Communication; Information Technology)

CRITICAL THINKING QUESTIONS

Each critical thinking question includes multiple questions or justification to support responses. The set of 10 questions could be assigned as a comprehensive assignment, or sets of questions could be identified to support specific aspects of students' learning.

- 1. Some research suggests that emotional intelligence is a stronger predictor of job success than traditional intelligence—how smart you are. Why do you think emotional intelligence is so important for many jobs?** (SQ1; AACSB Tags: Written and Oral Communication; Interpersonal Relations and Teamwork)

NOTES: Students' answers will vary, but could include the following components of emotional intelligence and their application to a wide range of job-related situations: (1) recognizing one's own emotions; (2) interpreting tone, facial expressions, and body language; (3) tracking behavior and comparing it with the language used; and (4) paraphrasing to draw out the emotional as well as the literal content of a statement.

- 2. Explain a situation—either at home, school, or work—in which you listened passively and neglected to hear important information. Describe the negative result and identify how you could have used active listening strategies to improve your communication process.** (SQ1; AACSB Tags: Written and Oral Communication; Interpersonal Relations and Teamwork)

NOTES: Students' answers will vary based on their personal experiences. They should identify how they would use the active listening skills of hearing, comprehending and interpreting, evaluating, and responding.

- 3. Designers of consumer products argue that to understand what customers really need, you have to do more than listen to what they say. You have to observe what they do. Why do you think there is often a gap between what people say and what they do?** (SQ1; AACSB Tag: Written and Oral Communication)

NOTES: What students *think* may vary. Possible answers: (1) emphasis or tone of voice indicate how people *feel* about a product as opposed to what they think of it; and (2) while they may be verbalizing what they think is "correct," their body language will be more indicative of their opinions.

- 4. Review the speaking strategies listed at the beginning of SQ2. Divide them into two lists: strategies that you currently try to use when you speak and strategies that you typically do not think about. Of the strategies that you typically do not think about, identify one that you'd like to begin using immediately and explain why.** (SQ2; AACSB Tag: Written and Oral Communication)

NOTES: Students' answers will vary based on their personal experiences. They should identify two lists of strategies: (1) those they currently use, and (2) those they don't think about. Then they should identify one strategy from the second list and describe why they would like to begin using it.

- 5. What words or phrases trigger a negative emotional response from you? If someone repeatedly uses one of your "trigger words," what are your options for responding? Which option would you choose?** (SQ2; AACSB Tags: Written and Oral Communication)

NOTES: Students' answers will vary. They should include the following information: (1) trigger words/phrases, (2) their options for responding to these word/phrases, and (3) which option they would choose.

- 6. Some organizations provide the services of mediators to help resolve workplace conflicts. What are the advantages of having a disinterested party resolve a conflict? What are the advantages of having people involved in the conflict work it out on their own?** (SQ3; AACSB Tag: Interpersonal Relations and Teamwork)

NOTES: Answers should address two parts: (1) the advantages of using a mediator (e.g., the mediators' impartially to focus on both parties' needs, mediate differences of opinion, avoid competing goals, work through relational differences, and identify ego issues); and (2) the advantages of having people involved in conflict work it out on their own (e.g., taking ownership for the solution, collaborating to reach a balanced compromise, and better understanding each other's perspectives).

- 7. Imagine you have been hired by a global company that is holding a two-week orientation for all new employees at the head office in San Francisco. You will be staying in a hotel for two weeks, and you have been assigned to share a room with a new employee from Zurich, Switzerland. What can you do to find out in advance a little bit about the culture in Zurich? Once you have identified some characteristics of that culture, what can you do to ensure that you do not stereotype your roommate?** (SQ4; Diverse and Multicultural Work Environments)

SAMPLE ANSWER: You can research the culture in Switzerland by using web-based search tools to find credible sources. Before stereotyping, you can observe your roommate's interaction and analyze his/her communication. If you think the roommate is open to the discussion, you could share your findings and ask for feedback about the validity of the information.

- 8. Explain a team situation in which you experienced conflict. What was the purpose of the team? Why did the affective and/or cognitive conflict to occur? How did the team resolve the conflict? What was the impact on the final product?** (SQ3, SQ5; AACSB Tag: Interpersonal Relations and Teamwork)

NOTES: Students' answers will vary based on their personal experiences. They should identify four parts in their answer: (1) the purpose of the team, (2) why the conflict occurred (and whether it was affective or cognitive), (3) how the team resolved the conflict, and (4) the impact of the conflict on the final product.

- 9. Imagine you have a teammate who wants to do all the project work himself because he does not trust anyone else on the team to produce high-quality results. How would you respond to that teammate?** (SQ5; AACSB Tag: Interpersonal Relations and Teamwork)

SAMPLE ANSWER: You could analyze the situation by asking why he doesn't want to share the responsibility for complete the work with the entire team. If his motivation is earning the best grade possible, you could explain that collaboration would allow more work to be done and a variety of perspectives to be included. If he seems to be motivated by ego, identify that everyone has different skills, and the team could learn from each other while completing the project.

- 10. Social loafing refers to the tendency of certain people to do less work when they are part of a team than they would when working independently. What strategies can a team use to minimize social loafing of team members?** (SQ5; AACSB Tag: Interpersonal Relations and Teamwork)

SAMPLE ANSWER: The team can develop more explicit goals and standards, and share them in writing. If goals and standards (especially expectations for engagement and effort) are spelled out, it becomes harder for individuals to rationalize doing less than they are capable of. The team can also take care to define what results are expected from each individual when dividing work or assessing team progress.

KEY CONCEPT EXERCISES

SQ1 What listening skills will help you communicate better with others?

1 Hearing accurately (AACSB Tags: Written and Oral Communication; Diverse and Multicultural Work Environments)

NOTES: Students will identify strategies to improve listening in two situations.

SAMPLE ANSWERS:

- a. Four strategies the team could take to make it easier for a teammate who has a hearing impairment:
1. Use written agendas and meeting notes that are prepared ahead of time to share information
 2. Emphasize nonverbal communication to support spoken meaning
 3. Ensure speakers face the hearing-impaired teammate and speak loudly/clearly
 4. Ask a teammate seated next to the hearing-impaired teammate to summarize/paraphrase
 5. Record comprehensive minutes that are distributed quickly

Four things the hearing-impaired teammate can do to better hear the team:

1. Paraphrase teammate's information to ensure understanding
 2. Ask teammates who mumble to speak up
 3. Copy teammate's meeting notes
 4. Record the meeting to play back later (or use voice recognition software)
- b. To ensure your mind doesn't wander during meetings, you could: focus on the speaker and concentrate on the content, take good notes, be engaged in the conversation (e.g., ask questions), and ask questions to help the speaker get to the point.

2 Comprehending and interpreting—listening to tone of voice (AACSB Tag: Written and Oral Communication)

NOTES: Students will (a) identify different meanings communicated through different nonverbal cues and (b) determine whether paraphrased statements reflect content, intent, or feeling.

SAMPLE ANSWERS:

- a. "I didn't do anything wrong" suggests that the speaker isn't at fault for the wrong action.
"I didn't do anything *wrong*" suggests that the speaker's actions were not wrong.

- b. “**We** need to talk now” implies a specific group of people who need to talk.
“We need to talk **now**” implies that the conversation is urgent.
 - c. “I’ll give you my **phone number** after the meeting” emphasizes what will be given.
“I’ll give you my phone number **after** the meeting” emphasizes when it will be given.
 - d. “**When** did you come up with this idea?” focuses on when the idea was conceived.
“When did **you** come up with this idea?” focuses on who conceived the idea.
“When did you come up with **this** idea?” focuses on which idea was conceived.
-

3 Comprehending and interpreting—paraphrasing to ensure understanding (AACSB Tag: Written and Oral Communication)

SAMPLE ANSWERS:

- a. Accounts payable / Purchasing
So you are saying that our computer system will not allow you to pay a partial invoice?
Content—states the understanding of the explicit message

So, it’s company policy not to pay partial invoices?
Intent—uncovers why accounts payable made the statement

You sound like you might want some help with the invoices since you’re spending...
Feelings—determines the emotions in the statement
 - b. Interviewer / Interviewee
Your goal has always been to go into public relations?
Intent—uncovers why accounts payable made the statement

So, you were frustrated and that led to a career change?
Feelings—determines the emotions in the statement

You believe that public relations will make better use of your talents.
Content—states the understanding of the explicit message
-

4 Comprehending and interpreting—being aware of gender-specific communication styles (AACSB Tags: Written and Oral Communication; Diverse and Multicultural Work Environments)

NOTES: Students will discuss scenarios (either in teams or the whole class) that describe gender-specific communication styles. They will identify (1) whether they have noticed these types of differences in their own experience and (2) what they would recommend the participants do to bridge the differences. Samples answers for the second half of the exercise are provided.

SAMPLE ANSWERS:

- a. Establish that gender and/or personality differences exist, identify that both perspectives have merit, and determine if they have a shared understanding of the goals for the project before moving forward.
- b. Appreciate each other’s points of reference, but also share the need to feel comfortable with the wording to ensure understanding. Both Richard and Alice can agree to avoid metaphors and anecdotes and use concrete, specific wording.
- c. Denise needs to understand that males tend to interrupt when they have a point and that she also needs to interrupt to ensure her point of view gets equal time. However, James needs to understand that women don’t often feel comfortable interrupting someone else. If James interrupts, he needs to pause to allow Denise to speak, too.

5 Evaluating (AACSB Tags: Written and Oral Communication; Interpersonal Relations and Teamwork)

NOTES: Students will describe how they would evaluate a colleague’s proposal to require that new hires have three years of work experience.

SAMPLE ANSWERS: (1) Remove prejudice of Bob’s negative attitude (e.g., “Bob is always complaining about something and offers nothing but negative comments at meetings”), (2) remove prejudice about your own background and situation (e.g., “You have made friends with one of the new hires, and ... You were hired right out of college, too”), (3) avoid jumping to conclusions based on your own experience, (4) keep an open mind when critically evaluating the idea, and (5) separate emotions from logic.

6 Responding (AACSB Tags: Written and Oral Communication; Interpersonal Relations and Teamwork)

NOTES: Students will compose responses to a teammate who misses deadlines and completes partial work but says she will meet the next deadline. Six different responses will be identified, as well as the best one. Students should be prepared to discuss their answers in class.

SAMPLE ANSWERS:

- a. **Ask a question:** Is there anything I can do to help you meet this deadline?
- b. **Make a judgment:** You have all the information you need. I’m sure you’ll do well.
- c. **Contribute an opinion:** I don’t think you’ll make the deadline; let’s discuss alternatives.
- d. **Give advice:** If you finish your work the night before, you’ll have time to proofread, too.
- e. **Argue or disagree:** I don’t think you have enough time. Let’s reassess our timeline.
- f. **Express empathy:** I know you’ve been very busy lately. Let me know if I can help.

SQ2 How can you help others listen well when you speak?

7 Focus on your audience (AACSB Tag: Written and Oral Communication)

NOTES: Answers will vary based on student experience. Students are to assume a friend/relative called to ask how school or work is going. Students will write a two-paragraph email to the instructor. The first paragraph will identify the friend/relative and the intent of the call. The second paragraph will explain how they would respond and why, as well as what they wouldn't include and why.

8 Share the conversation (AACSB Tag: Written and Oral Communication)

NOTES: Answers will vary based on students' observations of meeting or meal conversations in small groups. Responses to four questions are required. No specific format is implied. Students can be instructed to write their answers, prepare a presentation, or discuss their responses in small groups.

9 Use clear, concrete, unambiguous language (AACSB Tag: Written and Oral Communication)

SAMPLE ANSWERS:

- a. **You did a great job on that report.**
Do I normally *not* do a great job?
Possible revision: You did a great job on that report, as usual.

 - b. **Mary's job performance hasn't been satisfactory this year.**
What about Mary's performance has been poor?
Possible revision: Mary has missed all of our deadlines this year.

 - c. **Our presentation needs to be perfect.**
Why? What about our presentation needs to be perfect?
Possible revision: Our presentation will determine if the client chooses our plan. We need to make sure we predict all possible objections.

 - d. **There are just a few small problems to clear up before signing the contract.**
What are the small problems?
Possible revision: Before signing the contract, we need to change the starting date from the 1st to the 3rd, reduce the costs by 2 percent, and change the deadline to the end of the year.

 - e. **Clean up the conference room before the end of the day.**
Why do I have to clean up the conference room? By myself? When is the end of the day?
Possible revision: Make sure janitorial services cleans up the conference room before 5 PM.

 - f. **Let's talk after the project is finished.**
What do we need to talk about? When will the project be finished?
Possible revision: Let's talk about changes in staffing assignments after the project is finished next week.
-

10 Support your message with good nonverbal communication (AACSB Tag: Written and Oral Communication)

NOTES: Answers will vary based on student experience. Students will ask a stranger for directions and observe the person's nonverbal communication. Responses are required for three questions: (1) the person's verbal message, (2) the nonverbal elements that support the message, and (3) any nonverbal elements that conflict with the message.

11 Avoid language that triggers a negative response (AACSB Tags: Written and Oral Communication; Diverse and Multicultural Work Environments)

NOTES: Answers will vary based on students' perceptions of themselves. Students will react to labels someone could use to identify them and select the term(s) they prefer. For the remaining labels, students are to explain the problems with the terms and any bias they may represent.

SAMPLE ANSWERS:

- Young lady/Young man—diminutive and dismissive
- Woman/Man—ambiguous
- Gal/Guy—informal and unprofessional
- Expert—may be misleading or tough to live up to
- Consultant—may be appropriate
- Genius—misleading and may make employees defensive
- College girl/College boy—diminutive, dismissive, and inaccurate

12 Frame negative comments positively (AACSB Tag: Written and Oral Communication)

NOTES: Students will respond to three scenarios by providing criticism without using “but.”

SAMPLE ANSWERS:

- a. Although I appreciate that you were thinking about how the handouts could easily be distributed at one time, I want to provide each sheet individually throughout the session so we can focus on one aspect of the training at a time. Please remove the staples and separate the sheets. Thanks.
- b. I think employee morale would improve if people knew that they were doing a good job. Your positive reinforcement would be very well received.
- c. As much as I enjoy the information you share about colleagues, your supervisor could view it as a lack of confidentiality. Maybe if you demonstrate that you can keep sensitive information from spreading, you will be trusted with more responsibility.

SQ3 How can you manage interpersonal conflict?

13 Identify the cause of the conflict (AACSB Tag: Interpersonal Relations and Teamwork)

NOTES: Students will evaluate three scenarios to determine the cause of conflict (e.g., competing goals, differences of opinion, lack of information, relational issues, or ego issues).

SAMPLE ANSWERS:

- a. Competing goals or difference of opinion about the criteria for the selection
 - b. Difference of opinion about the professionalism of the logo options
 - c. Difference of opinion about the importance of the deadline versus the seriousness of the errors
-

14 Select an appropriate management technique (AACSB Tag: Interpersonal Relations and Teamwork)

NOTES: Students will write a memo to the instructor explaining how they would use five conflict management techniques and then explain which of the five they would recommend. Memo content will vary, but sample explanations for each technique are provided.

SAMPLE ANSWER:

- **Avoid:** Avoid dealing with the conflict by working on the presentation yourself.
 - **Accommodate:** Accommodate your teammate by spending the entire day Friday working on the presentation and then doing any additional work yourself over the weekend.
 - **Compete:** Compete with your teammate by arguing or suggesting you discuss the matter together with the instructor.
 - **Compromise:** Compromise by suggesting that he'll still have Sunday to relax if you work both Friday and Saturday to finish the presentation.
 - **Collaborate:** Collaborate by discussing the work that needs to be done, the amount of time available to do it, and the equitable balance of labor.
-

SQ4 How can you improve your communication with people from different cultures?

15 Understand how cultures differ (AACSB Tag: Diverse and Multicultural Work Environments)

NOTES: Students will research nonverbal cultural differences with a country of their choice and be prepared to discuss their findings in class. Answers will vary based on the country students choose and the resources they find.

16 Develop strategies that help you communicate with diverse groups (AACSB Tags: Written and Oral Communication; Diverse and Multicultural Work Environments)

NOTES: Students will identify meanings of idiomatic phrases and revise the phrases to be more easily understood by international audiences.

SAMPLE ANSWERS:

- **Drive me up the wall**
Means something irritated you
For example: Loud music really drives me up the wall.
Revision: Loud music really irritates me.

- **Out of sync**
Means something is out of order, does not match, or is not right
For example: His proposal is out of sync with the clients' needs.
Revision: His proposal does not match the clients' needs.

- **Out of the box**
Means something unique or creative
For example: We need to think out of the box to come up with a new campaign.
Revision: We need to think creatively to come up with a new campaign.

- **Threw me for a loop**
Means something confused you or took you by surprise
For example: Her unprofessional appearance threw me for a loop.
Revision: Her unprofessional appearance surprised me.

- **That's cool**
Means something is okay or good
For example: I didn't know you could download free apps. That's cool.
Revision: I didn't know you could download free apps. That's a nice feature.

17 Intercultural issues [Related to the Ethics feature] (AACSB Tags: Diverse and Multicultural Work Environments; Ethical Understanding and Reasoning)

NOTES: Answers will vary. Students will find two articles about instances of bribery between the United States and foreign countries, describe the companies and bribes, and determine if either of the companies was charged. They'll use an online Bribe Payers' Index to determine how the countries in the articles rank on the list. Findings should be summarized in a paragraph or two. Students should be prepared to share their findings in class.

SQ5 How can you work effectively as part of a team?

18 Assemble an effective team (AACSB Tag: Interpersonal Relations and Teamwork)

NOTES: Students assume they are the president of their school's investment club and have to write a competitive proposal to receive a \$5,000 grant from their school for professional development travel. They

need to pick three or four members from the association's eight-person executive board to help them write the proposal. Short descriptions of the board members are provided.

SAMPLE ANSWER:

Answers will vary, but should be justified based on the proposal criteria outlined in the exercise:

- Justify the group's financial need
- Outline the potential use of the funds
- Demonstrate how the group will benefit

Other information that should be considered includes the facts that the grant is:

- competitive (e.g., must be persuasive and well written)
- due in two weeks

Students should list three or four people of those listed and justify their selections both in terms of how their selections would benefit the project as well as how the remaining people would not. Justification should balance experience, writing skills, creativity, scheduling, and enthusiasm for the project.

19 Agree on team goals and standards (AACSB Tag: Interpersonal Relations and Teamwork)

NOTES: Students will research "team contracts" to determine similarities and differences among the samples they find. They'll consider their own team experiences to create an outline of topics they would include in a team contract. Content from SQ5 should be addressed: goals, expected results, team standards, delegation of responsibilities, timelines, meetings, decision-making process, resolving differences, and consequences for not following through with assignments. No specific end product is identified.

20 Pay attention to team development and dynamics (AACSB Tag: Interpersonal Relations and Teamwork)

NOTES: Students will summarize one of their recent team experiences using some of the questions outlined in the exercise to describe the development of their team. Answers will vary, but students should use topics and terminology outlined in SQ5 to support their information. No specific end product is identified.

21 Develop good leadership practices (AACSB Tag: Interpersonal Relations and Teamwork)

NOTES: Students will search the Internet for information about leadership styles to identify one that best represents their own leadership style. In a few paragraphs, they will document their source, describe the leadership style, and explain how it best fits their personality. No specific end product is identified.

22 Plan for effective meetings (AACSB Tag: Interpersonal Relations and Teamwork)

NOTES: Students will practice their note-taking skills by watching a half-hour news broadcast or attending a seminar/workshop. A specific activity/event could be assigned (or posted to the course learning management

system) for easier evaluation of the pertinent information. Students should create professional-looking minutes using the sample in Figure 2.8 as an example.

23 Be a good team member (AACSB Tag: Interpersonal Relations and Teamwork)

NOTES: Five scenarios are presented. Students are to identify the conflict and describe how they would respond. Answers could be summarized in written form (e.g., paragraphs, email, or memo to instructor) or presented in small groups or in-class discussion.

SAMPLE ANSWERS:

- a. To encourage Joe to be an active member of the team, meet with him individually to determine his strengths and assign him a specific task that can be shared with the group electronically. Set up a virtual meeting and information sharing system (e.g., Google docs) and encourage daily interaction online, even if brief.
- b. Assure Joe that the content will be researched long before the last day and encourage the other team members to send Joe content as they complete it (rather than all at once at the end of the project). Conversely, you could switch assignments with Joe.
- c. Ask Joe to meet you in the library (or elsewhere) so you can work on finishing the project together. Remind Joe about his initial negative reaction about having to put things together the night before the presentation and how unfair he said it was. Help him understand your perception of the situation.
- d. You could avoid conflict at this point by ignoring Joe's comment. However, you could tell Joe that although you're glad he feels things went well, you were frustrated with having to fake your way through content and that you think your grade would have been much better if he had completed his work earlier and more completely.
- e. Again, you could avoid conflict by ignoring Joe's assessment that everything was great. However, to document your disagreement, list facts that support your concern (e.g., collaboration was stymied by Joe's lack of participation in meetings and refusal to share contact information early in the process, assignments were changed because Joe complained he didn't want to put the content together at the last minute, but then Joe was guilty himself of not submitting his part of the content until the last minute, and his part of the project was incomplete).

WRITING EXERCISES

24 Analyzing collaboration: Extroverts and Introverts [Related to the Collaboration feature] (SQ5; AACSB Tag: Interpersonal Relations and Teamwork)

NOTES: In a few paragraphs, students explain how the combination of extroverts and introverts on a recent team helped or hurt that team. Students begin by describing the team and the team members, and identifying the goal of the activity. Students then identify which team members seem to them to be extroverts and which introverts, including themselves. Finally, students explain how they think the combination of styles helped or hurt the team. Answers will vary, but students should be instructed to incorporate specific examples to

support their answers. Students could submit the exercise by email or memo, or they could discuss their findings in small groups and present a summary of their group's discussion in written or oral (short presentation) form.

25 Selecting social collaboration tools [Related to the Technology feature] (SQ5; AACSB Tag: Information Technology)

NOTES: Students will research web-based collaboration tools and prepare a one-page summary of the tools' features. The format is not specified. Students should be encouraged to document the information (e.g., attach a printout of the information they found) and summarize the content in their own words. This exercise could be used to discuss the difference between paraphrasing and plagiarism.

26 Using Google Docs for collaboration [Related to the Technology feature] (SQ5; AACSB Tag: Information Technology)

NOTES: Students will use (or create) their Google account to familiarize themselves with the Google Docs applications. They will create sample documents, including a spreadsheet and a presentation—and save them as web pages. They will email their sample documents to the instructor to document their experience. Specific writing content is not specified in the exercise. Assessment may include merely checking that the student completed the activity.

27 Using GroupMe for collaboration [Related to the Technology feature] (SQ5; AACSB Tag: Information Technology)

NOTES: Students will use (or create) their GroupMe account to familiarize themselves with the features and send practice messages. Students must imagine that they are part of an intergenerational team with members who have not used group messaging before. Students must write an email persuading one such team member to try GroupMe, explaining its benefits.

If the class is diverse with regard to either age or messaging experience, consider having students work in pairs to make the experience more real. Alternately, have each student choose which person they identify with in the scenario: either the early adopter, or the voice of tradition. Have them role play the other's position when writing the email. This variant of the exercise can also be done in pairs. For example, the person taking the part of the traditionalist could write a reply to the first email, stating why they are or are not persuaded.

COLLABORATION EXERCISES

28 Improving active listening skills (SQ1; AACSB Tag: Written and Oral Communication)

NOTES: Students will work in groups of four; each member will be assigned a task—Speaker, Listener 1, Listener 2, and Observer. Each task is designated specific roles as outlined in the exercise. At the conclusion of the activity, each student will write an email to the instructor explaining the challenges and benefits of active listening. Responses will vary, but students should focus on the following elements: comprehending and interpreting, evaluating, responding, focusing on the audience, and using clear language.

29 Analyzing trigger words (SQ2; AACSB Tag: Written and Oral Communication)

NOTES: Students will work in groups of three or four to analyze trigger words and discuss personal reactions. Instruct students not to use vulgar trigger words that are considered offensive by all audiences. The teams will summarize their discussions and present their findings to the rest of the class.

30 Comparing cultural differences [Related to the Culture feature] (SQ4; AACSB Tag: Diverse and Multicultural Work Environments)

NOTES: Students will work in teams to research different countries—a different country for each team member. Research will focus on the customs and body language that could affect communication with people from each country. Students will report significant factors to consider and compare their findings. The team will write one memo to the instructor that summarizes everyone’s findings. Content should address nonverbal communication issues related to high/low context, uncertainty avoidance, time orientation, and levels of formality.

31 Comparing modes of team formation (SQ5; AACSB Tags: Written and Oral Communication; Interpersonal Relations and Teamwork)

NOTES: Students work in a group of 3–5 to compare and contrast Tuckman’s model of team formation with Edmondson’s model of teaming. Students are directed to consider three questions based on their own experiences, and to work together to summarize their discussion in a 2–4 paragraph post to a group discussion board or other online learning management system tool. Answers should identify the most important similarities and differences, note why a given model is considered more or less accurate or realistic than the other, and record whether students were interested in further researching a model, and why.

SOCIAL MEDIA EXERCISES

32 Social media and interpersonal communication (SQ1; AACSB Tag: Information Technology)

NOTES: Good arguments will draw on concrete examples from real social media users, and avoid generalizations and hearsay. You may wish to encourage students to challenge their own assumptions or first reactions when framing their argument. Some students may use this as an opportunity to reflect on how their own use of social media has contributed—positively or negatively—to their interpersonal communication skills. Depending on your purpose for the assignment, you may choose to encourage or discourage this direction.

33 Social media conversations and customer support (SQ1; AACSB Tag: Information Technology)

NOTES: Students will identify specific interpersonal skills that are important when chatting with customers through social media. Possible examples include active listening skills (for example, paraphrasing to ensure understanding), asking authentic questions, responding effectively, and framing negative comments positively.

In addition, a thoughtful answer might explore the ways in which conversations over social media are helped or hurt by the absence of tone, body language, and other cues present in face-to-face interactions. Potential examples could also include limitations on social media imposed by other kinds of barriers to communication, such as cultural or linguistic differences that make customer service chat sessions more difficult.

SPEAKING EXERCISES

34 Making informal impromptu presentations (SQ2, SQ5; AACSB Tag: Written and Oral Communication)

NOTES: Assign students to make informal five-minute presentations on one of the topics listed. Give them a minute to organize their thoughts, but encourage them to speak without notes. Encourage the class to identify both the strengths and weaknesses of the presentations in a supportive manner that supports improved speaking skills.

35 Presenting executive briefings (SQ2, SQ5; AACSB Tag: Written and Oral Communication)

NOTES: Assign students one of the topics listed and give them a day or two to prepare their executive briefing, which should be a five-minute presentation in front of the class. At least one visual aid should be included. Encourage the class to identify both the strengths and weaknesses of the presentations in a supportive manner that supports improved speaking skills.

GRAMMAR EXERCISES

36 Verbs (See Appendix C: Grammar, Punctuation, Mechanics, and Conventions—Section 1.1.2)
(SQ2; AACSB Tag: Written and Oral Communication)

NOTES: Students are asked to correct 10 errors in use or formation of verbs.

Answers: The 10 corrected answers are highlighted in color and listed in the order they appear in the paragraph.

1. If my first boss had **run**
2. have **gone** broke
3. he **grabs** the receiver
4. “That **doesn’t** sound
5. Barker **were** a dog
6. there **were** lots
7. still **answers** the phone
8. offenses **amount** to
9. there **are** several
10. George Barker” **makes** a better impression.

SUPPLEMENTAL HOMEWORK ASSIGNMENTS

1. Analyzing Nonverbal Communication (SQ1; AACSB Tag: Written and Oral Communication)

Select a scene from a movie or television shown in which two or more people are having a conversation. Watch it carefully two or three times, and focus on nonverbal communication. Take notes about what you see, such as facial expressions, gestures, body language, tone of voice, etc. Depending on the instructor's preferences, submit this in one of two ways:

- a. Write an email (150–300 words) to your instructor. Identify what you watched, describe what you saw, and discuss how you interpreted it and what you learned about nonverbal communication from this observation. Be sure your descriptions are detailed enough that your instructor is clear about what you observed. Proofread your email carefully before submitting.
- b. Write a posting for the class blog or discussion board. Identify what you watched and, if possible, provide a link so that your readers can watch it also. In your posting, describe what you saw, discuss how you interpreted it, and identify what you learned about nonverbal communication. Proofread your posting before publishing it.

NOTES: Answers will vary, but should be specific, detailed, and well organized. Encourage students to include their rationale for selecting the scene: why is it a useful set of examples, and what is the lesson to be learned from closely observing it?

2. Observing Gender-Specific Speaking Styles (SQ1; AACSB Tags: Written and Oral Communication; Diverse and Multicultural Work Environments)

Identify a time and place when both men and women will be participating in a discussion. It may be a seminar or class, a workplace or club meeting, or a party or other get-together. Observe the speaking styles of the men and women. Identify at least one instance of a male speaking style and one instance of a female speaking style. For each instance, write down what the person said and how others responded. Bring your notes to class and be prepared to present what you found.

NOTES: Answers will vary, but should include reasons why the style identified should be attributed to gender rather than some other cultural difference or aspect of personality. Encourage others in the class to ask questions about students' examples, and to make comparisons among examples as more students present their findings.

IN-CLASS ACTIVITY

1. Identifying Team Talent (SQ5; AACSB Tag: Interpersonal Relations and Teamwork)

Divide the class into teams of four or five people for this activity.

Imagine you will be working on a project that involves writing a formal report recommending ways your company can leave less of a carbon footprint in the workplace, and that *you* have the responsibility to assemble the team for this project. As a team, write two lists that answer the following two questions.

List 1: Existing Skills and Talents

What are the skills and knowledge needed to complete this team project effectively? For example, will you need someone who is good with Excel to make visuals for the report? Make a list of specific skills needed to get the project completed and identify individuals from your group who have those skills.

List 2: Team Gaps and Needs

What skills and knowledge is your team lacking that may require an additional team member? For example, if your team is knowledgeable about recycling in the workplace but does not know much about conserving energy and alternative energy sources, you may need someone else to join your team.

Conclude the document with a brief paragraph stating whether yours is a well-balanced team for this project. Provide reasons to support your claim. If you think you would need additional skills or knowledge to be effective, explain how you would fill the gaps.
