ISBN-13: 978-0-13-479293-4

Table of Contents

Chapter 1: What Is Personality?	1
Chapter 2: Sigmund Freud	13
Chapter 3: Carl Jung	35
Chapter 4: Alfred Adler	54
Chapter 5: Karen Horney	70
Chapter 6: Erik H. Erikson	86
Chapter 7: Gordon Allport	104
Chapter 8: Raymond B. Cattell and Hans J. Eysenck	119
Chapter 9: B. F. Skinner	136
Chapter 10: John Dollard and Neal Miller	152
Chapter 11: Albert Bandura and Walter Mischel	167
Chapter 12: David M. Buss	183
Chapter 13: George Kelly	199
Chapter 14: Carl Rogers	215
Chapter 15: Abraham Maslow	230
Chapter 16: Rollo Reese May	245
Chapter 17: A Final Word	260

CHAPTER 1: WHAT IS PERSONALITY?

Chapter Outline

- I. Three Concerns of Personality Theory
- II. Proposed Determinants of Personality
 - A. Genetics
 - B. Traits
 - C. Sociocultural determinants
 - D. Learning
 - E. Existential-humanistic considerations
 - F. Unconscious mechanisms
 - G. Cognitive processes
 - H. Personality as a composite of the above factors
- III. Questions Confronting the Personality Theorist
 - A. What is the relative importance of the past, present, and future?
 - B. What motivates human behavior?
 - C. How important is the concept of self?
 - D. How important are unconscious mechanisms?
 - E. Is human behavior freely chosen or is it determined?
 - F. What can be learned by asking people about themselves?
 - G. Uniqueness versus commonality
 - H. Are people controlled internally or externally?
 - I. How are the mind and the body related?
 - J. What is the nature of human nature?
 - K. How consistent is human behavior?
- IV. How Do We Find the Answers?
 - A. Epistemology
 - B. Science
 - C. Scientific Theory
 - D. Synthetic function versus heuristic function
 - E. Principle of verification
- V. Science and Personality Theory
 - A. Kuhn's view of science
 - B. Popper's view of science

1.1 Multiple Choice Questions

1) The term personality is derived from the Latin word persona, which means

- A) mask.
- B) mind.
- C) brain.
- D) the person.

Answer: A

Diff: 1

Page Ref: 1

Skill: Factual

LO: 1.1: Outline the issues in providing a comprehensive explanation of personality

2) According to Kluckhohn and Murray, every human being is

- A) like every other human being
- B) like apes
- C) like animals
- D) like machines

Answer: A

Diff: 1

Page Ref: 1, 2

Skill: Applied

LO: 1.1: Outline the issues in providing a comprehensive explanation of personality

3) According to the authors of your text, probably the most common lay explanation of personality is based on

- A) learning.
- B) cultural norms.
- C) genetics.
- D) existential-humanistic considerations.

Answer: C

Diff: 2

Page Ref: 2

Skill: Conceptual

LO: 1.2: Describe the factors that influence personality

4) The statement “He has an Irish temper” implies which of the following explanations of personality?

- A) cultural expectations
- B) learning
- C) inherited characteristics
- D) unconscious mechanisms

Answer: C

Diff: 1

Page Ref: 2

Skill: Conceptual

LO: 1.2: Describe the factors that influence personality

5) Findings by Bouchard and others suggest that the role of genetics in personality development is

- A) substantial.
- B) minimal.
- C) nonexistent.
- D) substantial in other animals but minimal in humans.

Answer: A

Diff: 2

Page Ref: 3

Skill: Applied

LO: 1.2: Describe the factors that influence personality

6) The question “How much of an attribute is accounted for by heredity and how much of it is accounted for by experience?” defines the

- A) mind-body problem.
- B) nativism-empiricism controversy.
- C) existential-humanistic controversy.
- D) uniqueness-lawfulness controversy.

Answer: B

Diff: 2

Page Ref: 3

Skill: Conceptual

LO: 1.2: Describe the factors that influence personality

7) A person who believes that a person’s IQ level is determined mainly by experience can be considered a(n)

- A) empiricist.
- B) existentialist.
- C) humanist.
- D) nativist.

Answer: A

Diff: 2

Page Ref: 3, 4

Skill: Conceptual

LO: 1.2: Describe the factors that influence personality

8) The researcher who is interested in knowing what organizations you belong to and the economic level of your family is stressing _____ determinants of personality.

- A) genetic
- B) sociocultural
- C) existential-humanistic
- D) unconscious

Answer: B

Diff: 2

Page Ref: 4

Skill: Conceptual

LO: 1.2: Describe the factors that influence personality

9) Those emphasizing the learning process in their explanation of personality are

- A) nativists.
- B) existentialists.
- C) humanists.
- D) empiricists.

Answer: D

Diff: 1

Page Ref: 4

Skill: Conceptual

LO: 1.2: Describe the factors that influence personality

10) Those theorists who say, “We are what we have been rewarded for being,” emphasize _____ in their explanation of personality.

- A) learning
- B) genetics

- C) early experience
- D) unconscious mechanisms

Answer: A

Diff: 2

Page Ref: 4

Skill: Conceptual

LO: 1.2: Describe the factors that influence personality

11) According to the theorist emphasizing the learning process in the explanation of personality, the difference between a successful person and an unsuccessful person is found in

- A) cultural norms.
- B) early experience.
- C) the genes.
- D) patterns of reward and punishment.

Answer: D

Diff: 1

Page Ref: 4

Skill: Conceptual

LO: 1.2: Describe the factors that influence personality

12) According to the theorist emphasizing the learning process in the explanation of personality, control _____ and you can control personality development.

- A) inheritance
- B) cultural expectations
- C) patterns of reward and punishment
- D) early experience

Answer: C

Diff: 2

Page Ref: 5

Skill: Conceptual

LO: 1.2: Describe the factors that influence personality

13) Theorists who emphasize the importance of either sociocultural determinants or learning in their explanations of personality are said to accept

- A) nativism.
- B) unconscious thought processes.
- C) free will.
- D) environmentalism.

Answer: D

Diff: 2

Page Ref: 5

Skill: Conceptual

LO: 1.2: Describe the factors that influence personality

14) Which of these questions is the existential-humanistic theorist likely to ask?

- A) Why are you the way you are?
- B) What have you been rewarded for being?
- C) What does it mean to be you?
- D) Why doesn't anyone like you?

Answer: C

Diff: 3

Page Ref: 5

Skill: Conceptual

LO: 1.2: Describe the factors that influence personality

15) Who is most likely to ask the question, “What is the significance of your awareness that you ultimately must die?”

- A) a learning theorist
- B) a psychoanalytic theorist
- C) an existential theorist
- D) a geneticist

Answer: C

Diff: 2

Page Ref: 5

Skill: Conceptual

LO: 1.2: 1.2: Describe the factors that influence personality

16) The _____ theorist assumes that a person knows a great deal about the determinants of his or her own personality.

- A) learning
- B) trait
- C) existential-humanistic
- D) psychoanalytic

Answer: C

Diff: 3

Page Ref: 5

Skill: Conceptual

LO: 1.2: Describe the factors that influence personality

17) The so-called _____ theorist is most interested in studying lapses of memory.

- A) learning
- B) trait
- C) existential-humanistic
- D) depth

Answer: D

Diff: 3

Page Ref: 5

Skill: Conceptual

LO: 1.2: Describe the factors that influence personality

18) The theorist emphasizing the unconscious assumes the person knows _____ determinants of his or her own personality.

- A) the unconscious
- B) only the conscious
- C) the existential-humanistic
- D) few if any

Answer: D

Diff: 3

Page Ref: 5

Skill: Conceptual

LO: 1.2: Describe the factors that influence personality

19) According to Freud’s or Jung’s theories, the ultimate causes of behavior are

- A) unconscious.
- B) learned.
- C) traits.
- D) cultural norms.

Answer: A

Diff: 1

Page Ref: 5

Skill: Applied

LO: 1.2: Describe the factors that influence personality

20) Which theory posits that your present experience and future goals are important determinants of personality?

- A) Learning Theory
- B) Existential-Humanistic Theory
- C) Trait Theory
- D) Cognitive Theory

Answer: D

Diff: 1

Page Ref: 5

Skill: Conceptual

LO: 1.2: Describe the factors that influence personality

21) Behavior that is pulled by the future rather than pushed by the past is called _____ behavior.

- A) teleological
- B) hedonistic
- C) humanistic
- D) existential

Answer: A

Diff: 1

Page Ref: 6

Skill: Conceptual

LO: 1.3: Summarize the personality theories on human nature

22) Hedonism refers to

- A) the search for meaning.
- B) the tendency to seek pleasure and avoid pain.
- C) goal-directed behavior.
- D) attraction to men named Don.

Answer: B

Diff: 1

Page Ref: 6

Skill: Factual

LO: 1.3: Summarize the personality theories on human nature

23) The _____ believes that knowing all the influences on a person at any given time makes it possible to predict that person's behavior with complete accuracy.

- A) determinist
- B) existentialist
- C) free-willist
- D) introspective

Answer: A

Diff: 3

Page Ref: 8

Skill: Conceptual

LO: 1.3: Summarize the personality theories on human nature

24) The intense study of the individual case is called _____ research.

- A) idiographic
- B) nomothetic
- C) introspective
- D) humanistic

Answer: A

Diff: 1

Page Ref: 8

Skill: Factual

LO: 1.3: Summarize the personality theories on human nature

25) The study of the average performance of groups of individuals is called _____ research.

- A) idiographic
- B) nomothetic
- C) introspective
- D) humanistic

Answer: B

Diff: 1

Page Ref: 8

Skill: Factual

LO: 1.3: Summarize the personality theories on human nature

26) Variables controlling a person's behavior internally are called

- A) person variables.
- B) situation variables.
- C) introspective variables.
- D) unconscious variables.

Answer: A

Diff: 1

Skill: Factual

LO: 1.3: Summarize the personality theories on human nature

27) Variables controlling a person's behavior externally are called

- A) person variables.
- B) situation variables.
- C) introspective variables.
- D) unconscious variables.

Answer: B

Diff: 1

Page Ref: 8

Skill: Factual

LO: 1.3: Summarize the personality theories on human nature

28) The mind-body problem consists of determining how

- A) our behavior can be both freely chosen and determined at the same time.
- B) mental events and bodily events are related to each other.
- C) bodily experiences are similar to mental experiences.
- D) the mind can inhibit undesirable behavior.

Answer: B

Diff: 3

Page Ref: 9

Skill: Conceptual

LO: 1.3: Summarize the personality theories on human nature

29) Which of the following positions on the mind-body problem states that there is really no problem because the mind does not exist?

- A) physical monism
- B) epiphenomenalism
- C) parallelism

D) interactionism

Answer: A

Diff: 1

Page Ref: 8

Skill: Factual

LO: 1.3: Summarize the personality theories on human nature

30) Which of the following positions on the mind-body problem claims that mental events are merely irrelevant byproducts of bodily events?

A) physical monism

B) epiphenomenalism

C) parallelism

D) interactionism

Answer: B

Diff: 1

Page Ref: 8

Skill: Factual

LO: 1.3: Summarize the personality theories on human nature

31) Which of the following positions on the mind-body problem claims that external events trigger mental and bodily events at the same time?

A) physical monism

B) epiphenomenalism

C) parallelism

D) interactionism

Answer: C

Diff: 1

Page Ref: 8

Skill: Factual

LO: 1.3: Summarize the personality theories on human nature

32) The _____ theory of human nature states that people become what they experience.

A) rationalistic

B) empirical

C) existential

D) animalistic

Answer: B

Diff: 2

Page Ref: 9

Skill: Conceptual

LO: 1.3: Summarize the personality theories on human nature

33) The _____ conception of human nature claims that we inherit behavioral predispositions from our evolutionary past, but these predispositions can be modified by rational thought or by cultural influence.

A) empirical

B) evolutionary

C) existential

D) mechanistic

Answer: B

Diff: 1

Page Ref: 9

Skill: Factual

LO: 1.3: Summarize the personality theories on human nature

34) The _____ theory of human nature assumes that we are born basically good.

- A) rationalistic
- B) existential
- C) animalistic
- D) humanistic

Answer: D

Diff: 1

Page Ref: 9

Skill: Factual

LO: 1.3: Summarize the personality theories on human nature

35) Traditionally, most personality theorists have assumed that

- A) people are basically selfish and animalistic.
- B) people are consistent.
- C) people have the tendency to lie and deceive.
- D) people are basically good.

Answer: B

Diff: 1

Page Ref: 9

Skill: Factual

LO: 1.3: Summarize the personality theories on human nature

36) _____ is the study of knowledge.

- A) Introspection
- B) Empiricism
- C) Epistemology
- D) Rationalism

Answer: C

Diff: 1

Page Ref: 10

Skill: Factual

LO: 1.4: Describe the scientific method in studying personality

37) _____ is the belief that sensory experience is the basis of all knowledge.

- A) Determinism
- B) Rationalism
- C) Empiricism
- D) Hedonism

Answer: C

Diff: 1

Page Ref: 10

Skill: Factual

LO: 1.4: Describe the scientific method in studying personality

38) Scientific theory combines _____ and _____.

- A) introspection; nativism
- B) hedonism; epistemology
- C) determinism; free will
- D) rationalism; empiricism

Answer: D

Diff: 2

Page Ref: 10

Skill: Factual

LO: 1.4: Describe the scientific method in studying personality

39) A theory's ability to explain several different observations is its _____ function.

- A) synthetic
- B) heuristic
- C) empirical
- D) deterministic

Answer: A

Diff: 1

Page Ref: 11

Skill: Factual

LO: 1.4: Describe the scientific method in studying personality

40) A theory's ability to generate new research is referred to as its _____ function.

- A) synthetic
- B) heuristic
- C) empirical
- D) deterministic

Answer: B

Diff: 1

Page Ref: 11

Skill: Factual

LO: 1.4: Describe the scientific method in studying personality

41) According to Hall and Lindzey, the most important question to ask when evaluating a personality theory is:

- A) Does it generate empirical research?
- B) Would it be approved by physical scientists?
- C) Does it seem reasonable?
- D) Does it explain everything that is known about personality?

Answer: A

Diff: 3

Page Ref: 11

Skill: Applied

LO: 1.4: Describe the scientific method in studying personality

42) In order to be useful, a scientific theory must

- A) explain all phenomena in a research area.
- B) generate new research.
- C) be incapable of being proven incorrect.
- D) refute current research

Answer: B

Diff: 2

Page Ref: 11

Skill: Conceptual

LO: 1.4: Describe the scientific method in studying personality

43) According to "the principle of verification," a theory is only useful if it

- A) is correct.
- B) is understood by scientists.
- C) has interesting premises and conclusions.
- D) can be tested.

Answer: D

Diff: 3

Page Ref: 11

Skill: Conceptual

LO: 1.4: Describe the scientific method in studying personality

- 44) Thomas Kuhn called a point of view shared by a large number of scientists a
- A) paradigm.
 - B) theory.
 - C) beam of light.
 - D) heuristic approach.

Answer: A

Diff: 1

Page Ref: 12

Skill: Applied

LO: 1.5: Summarize the various paradigms that guide research on personality

- 45) According to the authors of your text, the most important thing about paradigms is that
- A) logically, only one can be correct.
 - B) they all generate different research methodologies.
 - C) both A and B
 - D) neither A nor B

Answer: B

Diff: 1

Page Ref: 13

Skill: Conceptual

LO: 1.5: Summarize the various paradigms that guide research on personality

- 46) According to Popper, before a theory can be considered scientific it must
- A) make zero predictions.
 - B) be falsifiable.
 - C) make nothing but correct predictions.
 - D) be irrefutable.

Answer: B

Diff: 1

Page Ref: 14

Skill: Applied

LO: 1.5: Summarize the various paradigms that guide research on personality

- 47) Popper's principle of falsifiability is quite similar to
- A) the principle of verification.
 - B) the Kuhn dictum.
 - C) the rationality debate.
 - D) the existential paradigm.

Answer: A

Diff: 3

Page Ref: 14

Skill: Applied

LO: 1.5: Summarize the various paradigms that guide research on personality

- 48) According to Marx and Goodson, progress in science occurs when
- A) theories are wrong.
 - B) good people work together to solve problems.
 - C) technology makes the impossible possible.
 - D) theories are right.

Answer: A

Diff: 3

Page Ref: 14

Skill: Applied

LO: 1.5: Summarize the various paradigms that guide research on personality

49) Which of the following would Popper consider to be nonscientific?

- A) astrology
- B) Freud's theory of personality
- C) Einstein's theory of relativity
- D) both A and B

Answer: D

Diff: 3

Page Ref: 14, 15

Skill: Applied

LO: 1.5: Summarize the various paradigms that guide research on personality

50) According to Popper's criteria, many theories of personality

- A) are as scientifically sound as Einstein's theory.
- B) are based on pre-paradigmatic science.
- C) are not scientific.
- D) are philosophical.

Answer: C

Diff: 1

Page Ref: 15

Skill: Applied

LO: 1.5: Summarize the various paradigms that guide research on personality

1.2 Questions for Essay or Discussion

1. In your opinion, what are the most important questions about human personality? In other words, what questions about human nature should be contained in a theory of personality?
2. In your opinion, can human personality be studied scientifically? Why or why not?
3. How important is it for a theory of personality to make risky, testable statements? Explain your answer.

CHAPTER 2: SIGMUND FREUD

Chapter Outline

I. Biographical Sketch

- A. Born May 6, 1856, in Freiberg, Austria (now Pribor, Czech Republic)
- B. Entered medical school at University of Vienna at 17 years of age
- C. Entered private practice as a clinical neurologist in 1886
- D. Married in 1886
- E. Died September 23, 1939
- F. The Cocaine Incident
 1. Published six articles on the positive uses of cocaine
 2. Association with cocaine contributed to community scepticism regarding his theories

II. Three Early Influences on Freud's Theory

- A. Freud's visit with Charcot (1885): Experiments with hypnotism
- B. Freud's visit with Bernheim (1889): Further experiments with hypnotism
- C. Josef Breuer and the case of Anna O.
- D. The fate of Bertha Pappenheim

III. The Development of Free Association

- A. Freud abandoned hypnosis
- B. "The fundamental rule of psychoanalysis"
- C. Published *Studies in Hysteria* with Breuer
- D. *The Interpretation of Dreams*, 1900

IV. Instincts and Their Characteristics

- A. All aspects of human personality are derived from biological instincts
- B. Characteristics of instinct
 1. Source (bodily deficiency)
 2. Aim (correct the deficiency/restore balance)
 3. Object (reduces or removes deficiency)
 4. Impetus (determined by magnitude of deficiency)
- C. Life and death instincts
 1. Libido or Eros/the Life Instincts
 2. Thanatos/the Death Instinct

V. Divisions of the Mind

- A. The id
 1. Governed by the pleasure principle
 2. Acts through reflexes and wish fulfilment (primary processes)
- B. The ego
 1. Identification (matching id images with real objects)
 2. Governed by the reality principle
 3. Reality testing (secondary processes)
- C. The superego
 1. Conscience (from past punishments)
 2. Ego ideal (from past rewards)

VI. Cathexis and Anticathexis

- A. Influenced by Helmholtz's principle of conservation of energy
 1. Applied the principle to psychic energy
- B. Cathexis
 1. Investment of psychic energy in wish-images as ideas or fantasies
 2. Persists until the wish is satisfied
- C. Anticathexis
 1. Investment of psychic energy to prevent undesirable cathexes
- D. Displacement

1. Superego and ego divert undesirable cathexes to alternative objects
- VII. Anxiety
- A. Birth trauma and feeling of helplessness after birth
 - B. Functions to warn us if actions or thoughts are dangerous
 - C. Reality anxiety—related to real-world dangers
 - D. Neurotic anxiety—fear that id will overpower the ego
 - E. Moral anxiety—fear of actions or thoughts contrary to superego
- VII. Ego-Defense Mechanisms
- A. Irrational attempts to protect against anxiety
 1. All ego defense mechanisms are unconscious
 2. All ego defense mechanisms falsify or distort reality
 - B. Repression
 1. The basic defense mechanism—must occur before any of the others
 2. Prevention of ego-threatening thoughts from entering consciousness
 - a) Primal repression: Protects against id impulses
 - b) Repression proper: Protects against painful memories
 - C. Displacement
 1. Substitution of one need for another that provokes anxiety
 2. Sublimation: Displacement that is advantageous for society
 - D. Identification
 1. Ego attempts to match objects and events in the environment subjective to the wishes of the id
 2. Self-protection through affiliation with powerful persons or groups
 - E. Denial of reality
 1. Denial of facts despite evidence to the contrary
 - F. Projection
 1. Repression of anxiety-provoking truths about oneself and projecting them on others
 - G. Undoing
 1. Use ritualistic acts to atone for past anxiety provoking actions
 - H. Reaction formation
 1. Objectionable thoughts are repressed and opposite thoughts expressed
 - I. Rationalization
 1. Logically explains anxiety-provoking actions or thoughts
 - J. Intellectualization (isolation of affect)
 1. Ideas that cause distress are stripped of emotional content through logical analysis
 - K. Regression
 1. Person returns to an earlier developmental stage when experiencing stress
 - L. Altruistic surrender
 1. Lives in accordance with the values of a person perceived as superior
 - M. Identification with the aggressor
 1. Internalizes the values and mannerisms of a feared person
- VIII. Psychosexual Stages of Development
- A. Each stage has an erogenous zone as its greatest source of pleasure
 - B. Too much or too little gratification causes fixation (substantial cathexes)
 - C. Oral stage
 1. Pleasure from stimulation of mouth, lips, and tongue
 2. Early fixations result in oral-incorporative character
 3. Later fixations result in oral-sadistic character
 - D. Anal stage
 1. Pleasure from stimulation of anus/buttocks
 2. Early fixations result in anal-expulsive character
 3. Later fixations result in anal-retentive character
 - E. Phallic stage
 1. Pleasure from stimulation of penis

2. Oedipus complex occurs during this stage for both male and female children
 3. For boys, fear of father as dominant rival for mother's affection becomes castration anxiety
 4. Girls attraction to mother reduced upon discovering a lack of penis; rejection of mother, coupled with attraction to father is known as penis envy
 5. Both male and female children are bisexual
- F. Latency stage
1. Sexual interests are repressed and displaced
- G. Genital stage
1. Final stage of development
 2. Characterized by adult, heterosexual interests
- IX. Summary of Freud's Views on Feminine Psychology
- A. Viewed women as failed or inferior men
 - B. Believed women to be morally inferior due to weak superego development
 - C. Admitted failure to understand women
- X. Tapping the Unconscious Mind
- A. Free association
 - B. Dream analysis
 - C. Parapraxes in everyday life: Unconscious revealed in action
 - D. Humor
- XI. Modifications of the Freudian Legend
- A. Freud's revision of his seduction theory
 - B. Problems with repression of memories
 - C. Problems with distortion of the "Freudian History"
- XII. Evaluation
- A. Empirical research
 1. Attempts to replicate research produced mixed results
 - B. Criticisms
 1. Internally inconsistent
 2. Demonstrate male chauvinism
 3. Overemphasize sexual motivation and unconscious motivation
 4. Too pessimistic about human nature
 5. Equating happiness with tension-free state occurring when all biological needs satisfied
 - C. Contributions
 1. Overall value is positive
 2. Importance of childhood sexuality in personality development
 3. Ways people defend against anxiety
 4. "Normal" and "abnormal" behavior determined by same processes
 5. Many subsequent theories reactions to Freud

2.1 Multiple Choice

1) Charcot observed that while a patient was hypnotized, he could create and remove paralyses in the patient at will. This demonstrated that

- A) patients were malingerers.
- B) physical symptoms could have a psychological origin.
- C) physical symptoms had a physical origin.
- D) physicians had supernatural powers.

Answer: B

Diff: 1

Page Ref: 20

Skill: Applied

LO: 2.2: Summarize the early influences on Freud's theory of personality

2) Hysteria is a term used to describe

- A) psychosis.
- B) a variety of symptoms such as paralysis and disturbances of sight and speech.
- C) a general release of emotional tension.
- D) children.

Answer: B

Diff: 1
