

Chapter 2 – Ethical Theory

MULTIPLE CHOICE

1. A client is refusing a blood transfusion, despite the possible consequences. The nurse caring for this client knows that the client will die without the blood transfusion. What is this an example of?
- personal philosophy
 - virtue ethics
 - ethical dilemma
 - practical imperative

ANS: C

PTS: 1

REF: p. 23

BLM: Higher Order

2. Which moral perspective propounds the belief that people can figure out absolute moral rules which derive from the universe and that these truths are superior to the information received from the senses?
- moral belief
 - rationalism
 - deontology
 - naturalism

ANS: B

PTS: 1

REF: p. 27

BLM: Remember

3. A nurse performs CPR on a choking patient and in the process breaks the sternum, which then leads to the patient's death. Which ethical theory would say that the nurse's actions were inherently good because of the intent, regardless of the outcome?
- deontology
 - naturalism
 - rationalism
 - utilitarianism

ANS: A

PTS: 1

REF: p. 34

BLM: Higher Order

4. Scenario: In a clinic where there is only one functioning haemodialysis machine, there are two patients waiting for dialysis. One patient is a female, married, with four children; the other is a male, unmarried, and a homeless alcoholic. The nurse decides that the female is the right choice. Which of the following most clearly supports the nurse's decision?
- deontology
 - virtue ethics
 - rationalism
 - utilitarianism

ANS: D

PTS: 1

REF: p. 29

BLM: Higher Order

Chapter 2 Ethical Theory

5. Which type of moral theory, rigidly applied, would most likely lead a person to consider euthanasia morally wrong, even when it is done to end the pain and suffering of a patient?
- deontology
 - virtue ethics
 - naturalism
 - utilitarianism

ANS: A

PTS: 1

REF: p. 34

BLM: Higher Order

6. What is the term for the Kantian maxim requiring that no action be judged as right which cannot reasonably become a law by which every person should always abide?
- the categorical imperative
 - the practical imperative
 - deontology
 - utilitarianism

ANS: A

PTS: 1

REF: p. 34

BLM: Remember

7. What is the Kantian maxim requiring that one treat others always as ends and never as a means?
- the categorical imperative
 - the practical imperative
 - deontology
 - utilitarianism

ANS: B

PTS: 1

REF: p. 45

BLM: Remember

8. Which concept was first noted in the writings of Socrates?
- virtue ethics
 - utilitarianism
 - deontology
 - rationalism

ANS: A

PTS: 1

REF: p. 25

BLM: Remember

9. Which ethical theory, when applied, would most likely lead to making meals for a needy family?
- rationalism
 - naturalism
 - virtue ethics
 - deontology

ANS: B

PTS: 1

REF: p. 27

BLM: Higher Order

Chapter 2 Ethical Theory

10. What theory is based on the view that the rightness or wrongness of an act depends upon the nature of the act, rather than its consequences?
- deontology
 - formalism
 - Kantianism
 - act utilitarianism

ANS: A PTS: 1 REF: p. 34 BLM: Remember

11. What kind of philosophy is a nurse engaged in when debating what is considered good or bad, right or wrong?
- empathy
 - sympathy
 - moral
 - virtualism

ANS: C PTS: 1 REF: p. 26 BLM: Higher Order

12. A nurse recognizes and shares with a client the understanding of the amount of pain that the client is experiencing. What focal virtue is this situation based on?
- discernment
 - compassion
 - trustworthiness
 - integrity

ANS: B PTS: 1 REF: p. 39 BLM: Higher Order

13. A nurse notices a patient crying and decides to offer some reassurance, rather walking away and giving the patient privacy. What focal virtue is the nurse exhibiting?
- discernment
 - compassion
 - trustworthiness
 - integrity

ANS: A PTS: 1 REF: p. 39 BLM: Higher Order

14. What focal virtue is best exemplified by soundness, reliability, and wholeness of moral character?
- discernment
 - conscientiousness
 - trustworthiness
 - integrity

ANS: D PTS: 1 REF: p. 40 BLM: Higher Order

Chapter 2 Ethical Theory

15. What focal virtue is measured by other people's recognition of the nurse's consistency and predictability in following moral norms?
- discernment
 - conscientiousness
 - trustworthiness
 - integrity

ANS: C

PTS: 1

REF: p. 40

BLM: Remember

16. During a healthcare team meeting, the physician asks the other members of the team for their input on how best to care for a particular patient, rather than dictating a prescribed plan of care. What ethical theory does this situation best exemplify?
- feminist ethics
 - relational ethics
 - hierarchy ethics
 - virtue ethics

ANS: B

PTS: 1

REF: p. 41

BLM: Higher Order
