

●	CC Sx	How can I help you today?	getting worse. I've also had shortness of breath when I'm walking to my next class at school. I have to stop and take a break.	
⊗	Assoc Sx	Do you have any other symptoms or concerns we should discuss?	No, but I did have a runny nose and congestion three weeks ago. The congestion went away in a week but the cough is still there.	

## OLD-CARTS for the HPI

● Asked ⊗ Not asked

Graded	Approach	Question	Response	Inform Obtain Clinic
●	Onset	When did you first notice feeling short of breath?	This has been happening for three days now and it's made me a little scared!	
	Location			
●	Characteristics	Has there been any change in your shortness of breath over time?	but it got better after a few days so I did not get checked. This time, it's lasting longer. I also didn't want to stress out my parents because they have to work so much so I never told them.	
●	Characteristics	Are you coughing up any sputum?	Nope.	
●	Characteristics	Do you wheeze?	I'm not sure.	
●	Characteristics	Does your chest feel tight or heavy?	Yes, actually, that's the right way to describe it. Tight that is. Just a little bit.	
⊗	Characteristics	Do you have any pain or other symptoms associated with your cough?	No pain, but I am getting out of breath and I think that is maybe related.	
●	Aggravating	Does anything make your shortness of breath better or worse?	It gets a little better when I stop walking and rest for a bit. It's a little worse at night.	
●	Aggravating	Does anything make your cough better or worse?	Not really, it has been constant but has been getting worse over the past three days and seems	

●	Timing/Treatments	What treatments have you had for your cough?	Nothing.	
	Severity			

## PMH, FH, SH as Needed

● Asked ☒ Not asked

Graded	Approach	Question	Response	Information Obtained C Notes
●	PMH	Are you taking any over-the-counter or herbal medications?	No. Nothing like that.	
●	PMH	Are you taking any prescription medications?	Nope, still no prescriptions.	
●	PMH	Are your immunizations up to date?	I assume so.	
●	PMH	Do you have any allergies?	You mean like hay fever and stuff like that? No. The only allergy I know about is to a drug they gave me when I was a little	
●	PMH	Do you have any allergies?	You mean like hay fever and stuff like that? No. The only allergy I know about is to a drug they gave me when I was a little kid and had an ear ache.	
●	SH	Are you exposed to secondhand smoke?	Yes, my dad lost his job three years ago so he has been doing odd jobs since then. We had to move to an older building and it has cockroaches in it. Also the neighbors smoke inside the building so I always smell smoke everywhere.	
●	SH	Do you now or have you ever smoked or chewed tobacco?	Nope.	

## Review of Systems (ROS)

Select the major body systems that have not been touched on during the interview process for the HPI.

**Height/weight** 5' 5" (165.0 cm) - 150 lb (68.0 kg) (BMI 25.0)

**Skin** Warm, dry

**Temperature** 98.6 F

**Pulse** 90

regular

normal

**Respiration** 26

regular

unlabored

**Blood Pressure** Use the sphygmomanometer tab to measure BP

112 / 84, assessment: normal  
pulse pressure: normal

**Mental Status**

## Vitals Documentation:

- *Pulse*: Good, all correct. (FYI actual rate: 88)
- ✗ *Respiration*: Incorrect effort, correct is *labored*.
- *BP*: Good, all correct. (FYI actual BP: 112/82)

## Exam Documentation:

- *Lung Auscultation*: Good, all correct.

## Exams Performed:

### ● Correct

Good, you performed 8 key exams for this case:

1. *Vitals: Temperature (provided)*
2. *Vitals: SpO2 (provided)*
3. *Vitals: Skin (provided)*
4. *Vitals: BP*
5. *Vitals: Pulse*
6. *Vitals: Respiration*
7. *Chest Wall & Lungs: auscultate lungs*
8. *Chest Wall & Lungs: visual inspection - anterior & posterior chest*

You also performed/saw results of additional exams that were not required, but are never inappropriate.

1. *Vitals: SpCO (provided)*
2. *Vitals: eTCO2 (provided)*

### ⊗ Missing

Oops. You missed 5 key exams. They are:

1. *HEENT: inspect ears*

Any patient with upper respiratory symptoms such as cough and congestion must have a thorough examination of the lungs, ears, nose are the components that are a part of the respiratory and ENT system.

2. *HEENT: look in ears with otoscope*

Any patient with upper respiratory symptoms such as cough and congestion must have a thorough examination of the lungs, ears, nose are the components that are a part of the respiratory and ENT system.

3. *HEENT: inspect nose*

Any patient with upper respiratory symptoms such as cough and congestion must have a thorough examination of the lungs, ears, nose are the components that are a part of the respiratory and ENT system.

4. *HEENT: look up nostrils*

are the components that are a part of the respiratory an

### 5. HEENT: inspect mouth/pharynx

Any patient with upper respiratory symptoms such as cc  
are the components that are a part of the respiratory an

Based on the information you obtained from you History and Physical exam, select the symptoms or findings that were identified and will help you form a differential diagnosis list. **Select no more than 9 items.**
