

NR 222 Test Preparation Exam 1

(Detail and complete solution with resources)

1. You are preparing a presentation for your classmates regarding the clinical care coordination conference for a patient with terminal cancer. As part of the preparation you have your classmates read the Nursing Code of Ethics for Professional Registered Nurses. Your instructor asks the class why this document is important. Which of the following statements best describes this code?

1. Improves self-health care
2. Protects the patient's confidentiality
3. Ensures identical care to all patients
4. Defines the principles of right and wrong to provide patient care

2. An 18-year-old woman is in the emergency department with fever and cough. The nurse obtains her vital signs, listens to her lung and heart sounds, determines her level of comfort, and collects blood and sputum samples for analysis. Which standard of practice is performed?

1. Diagnosis
2. Evaluation
3. Assessment
4. Implementation

3. A patient in the emergency department has developed wheezing and shortness of breath. The nurse gives the ordered medicated nebulizer treatment now and in 4 hours. Which standard of practice is performed?

1. Planning

2. Evaluation

3. Assessment

4. Implementation

4. A nurse is caring for a patient with end-stage lung disease. The patient wants to go home on oxygen and be comfortable. The family wants the patient to have a new surgical procedure. The nurse explains the risk and benefits of the surgery to the family and discusses the patient's wishes with them. The nurse is acting as the patient's:

1. Educator.

2. Advocate.

3. Caregiver.

4. Case manager.

5. The nurse spends time with the patient and family reviewing the dressing change procedure for the patient's wound. The patient's spouse demonstrates how to change the dressing. The nurse is acting in which professional role?

1. Educator

2. Advocate

3. Caregiver

4. Case manager

6. The examination for registered nurse (RN) licensure is exactly the same in every state in the United States. This examination:

1. Guarantees safe nursing care for all patients.

2. Ensures standard nursing care for all patients.

3. Ensures that honest and ethical care is provided.

4. Provides a minimal standard of knowledge for an RN in practice.

7. Contemporary nursing requires that the nurse has knowledge and skills for a variety of professional roles and responsibilities. Which of the following are examples? (Select all that apply.)

1. Caregiver

2. Autonomy and accountability

3. Patient advocate

4. Health promotion

5. Lobbyist

8. Match the advanced practice nurse specialty with the statement about the role.

1. Clinical nurse specialist- b. Expert clinician in a specialized area of practice such as adult diabetes care

2. Nurse anesthetist- d. Provides care and services under the supervision of an anesthesiologist

3. Nurse practitioner- c. Provides comprehensive care, usually in a primary care setting, directly managing the medical care of patients who are healthy or have chronic conditions

4. Nurse-midwife-a. Provides independent care, including pregnancy and gynecological services

9. Health care reform will bring changes in the emphasis of care. Which of the following models is expected from health care reform?

1. Moving from an acute illness to a health promotion, illness prevention model

2. Moving from an illness prevention to a health promotion model
