

Chapter 2 The Financial Statements

MULTIPLE CHOICE QUESTIONS

1. Current assets are:
- all assets except inventory.
 - all assets that provide benefits extending beyond one year.
 - cash, accounts receivable, and buildings.
 - all assets that are expected to be converted to cash in the near future.

Ans: D KP 2 BT: K Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

2. Intangible assets are:
- goodwill, patents, copyrights, and trademarks.
 - property, plant, and equipment.
 - all assets **except** current assets.
 - those assets that an owner can purchase with cash only.

Ans: A KP 2 BT: K Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

3. Long-term investments can include all of the following except:
- notes receivable maturing in nine months.
 - equity securities of another company to be held for more than a year.
 - ten-year debt securities of another company.
 - land to be held beyond one year.

Ans: A KP 2 BT: K Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

4. Which one of the following is an asset?
- A patent of a company's secret formula for reverse osmosis.
 - Retained earnings.
 - Notes payable.
 - Accounts payable.

Ans: A KP 2 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

5. Which one of the following groups of accounts contains only assets?
- Equipment, patents, accounts receivable.
 - Accounts receivable, building, retained earnings.
 - Accounts payable, notes payable, contributed capital.
 - Retained earnings, goodwill, and accounts payable.

Ans: A KP 2 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

6. Which one of the following groups of accounts contains only assets?
- Contributed capital, retained earnings, revenues.
 - Cash, contributed capital, retained earnings.
 - Prepaid expenses, land, accounts receivable.
 - Building, equipment, depreciation expense.

Ans: C KP 2 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

7. Which one of the following is a liability?
- Interest receivable.
 - Contributed capital.
 - Retained earnings.
 - Wages payable.

Ans: D KP 2 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

8. Which one of the following groups of accounts contains only current assets?
- Inventory, accounts receivable, equipment.
 - Cash, equipment, copyrights.
 - Cash, accounts receivable, merchandise inventory.
 - Patents, copyrights, and trademarks.

Ans: C KP 2 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

9. Which one of the following creates a decrease in retained earnings?
- Prepaid assets.
 - Equipment.
 - Dividends.
 - Merchandise inventory not sold.

Ans: C KP 2 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

10. At the end of 2014, Campbell Company has total assets and liabilities at \$42,000 and \$11,000, respectively. Campbell reported net income for 2015 in the amount of \$12,000. How much is shareholders' equity at the end of 2015?
- \$30,000
 - \$22,000
 - \$31,000
 - \$43,000

Ans: D KP 2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

Solution: $\$42,000 - \$11,000 + \$12,000 = \$43,000$

11. Which account is associated with the sale of inventory?
- Cost of goods sold.
 - Depreciation.
 - Inventory expense.
 - Equipment.

Ans: A KP 2 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

12. Which account is associated with borrowing money?
- Interest expense.
 - Goodwill.
 - Cost of goods sold.
 - Depreciation.

Ans: A KP 2 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

13. Which expense is associated with long-term assets?
- Dividends.
 - Depreciation.
 - Cost of goods sold.
 - Interest.

Ans: B KP 2 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

14. Which expense is associated with the use of patents?
- Interest.
 - Amortization.
 - Cost of goods sold.
 - Depreciation.

Ans: B KP 2 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

15. The major accounting difference between interest expenses for creditors and dividends declared and paid to shareholders is that interest expenses:
- decrease retained earnings and dividends increase retained earnings.
 - impact cash flows, while dividends do not.
 - are not on the income statement while dividends declared and paid are.
 - are on the income statement and dividends declared and paid are not.

Ans: D KP 2 BT: C Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

16. Desert Company has retained earnings of \$11,000, total assets totaling \$41,000, and total liabilities of \$20,000. How much is *total shareholders' equity*?
- \$8,000
 - \$19,000
 - \$21,000
 - \$27,000

Ans: C KP 2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

Solution: $\$41,000 - \$20,000 = \$21,000$

17. Valley Company has cash, current liabilities, and long-term liabilities of \$120,000, \$30,000, and \$31,000, respectively. Valley has no current assets other than cash. How much cash can Valley use to acquire equipment so that amount of current assets is double the amount of current liabilities?
- \$30,000
 - \$60,000
 - \$15,000
 - \$90,000

Ans: B KP 2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

Solution: $\$120,000 - [2 \times \$30,000] = \$60,000$

18. Favre Company has current assets, shareholders' equity, current liabilities, and long-term liabilities of \$10,000, \$27,000, \$4,000, and \$8,000, respectively. How much are long-term assets?
- \$12,000
 - \$29,000
 - \$32,000
 - \$46,000

Ans: B KP 2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

Solution: $\$10,000 + \text{LTA} = \$4,000 + \$8,000 + \$27,000$
 $\text{LTA} = \$29,000$

19. Which one of the following equations represents retained earnings activity for a year?
- Beginning balance + expenses – dividends = ending balance.
 - Beginning balance + cash receipts – cash payments = ending balance.
 - Beginning balance + dividends – net income = ending balance.
 - Beginning balance + net income – dividends = ending balance.

Ans: D KP 2 BT: K Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

20. Which one of the following appears on the income statement?
- Inventory.
 - Retained earnings.
 - Dividends.
 - Interest revenue.

Ans: D KP 2 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

21. Which one of the following groups of accounts contains only liabilities?
- Accounts payable, retained earnings, notes payable.
 - Supplies expense, cost of goods sold, interest expense.
 - Wages payable, mortgage payable, taxes payable.
 - Contributed capital, accounts payable, retained earnings.

Ans: C KP 2 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

22. When an entrepreneur wishes to start a business, capital must be attracted in the form of:
- net income.
 - cost of goods sold.
 - operating activities.
 - equity or debt financing.

Ans: D KP 1 BT: K Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking, Industry AICPA FN: Measurement

23. If the beginning and ending balances in retained earnings are \$15,000 and \$10,000, respectively, and dividends during the year are \$8,000, then net income for the year is:
- \$10,000.
 - \$3,000.
 - \$18,000.
 - \$32,000.

Ans: B KP 2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

Solution: $\$15,000 + \text{NI} - \$8,000 = \$10,000$
 $\text{NI} = \$3,000$

24. Kelly Company has total assets, liabilities, and shareholders' equity of \$32,000, \$17,000, and \$15,000, respectively at the beginning of 2015. If Kelly reports revenues of \$130,000, expenses of \$80,000, and pays dividends of \$30,000, how much is shareholders' equity at the end of 2015?
- \$35,000
 - \$53,000
 - \$44,000
 - Not enough information to determine.

Ans: A KP 2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

Solution: $\$15,000 + [\$130,000 - \$80,000] - \$30,000 = \$35,000$

25. Sanchez Corporation has total assets, current liabilities, and long-term liabilities of \$40,000, \$2,000, and \$13,000, respectively. If Sanchez purchases equipment for \$5,000 for cash, how much would shareholders' equity be?
- \$25,000
 - \$10,000
 - \$29,000
 - \$11,000

Ans: A KP 2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

Solution: $\$40,000 - \$2,000 - \$13,000 + \$5,000 - \$5,000 = \$25,000$

26. The acquisition of equity and debt financing is considered:
- a financing activity.
 - net income.
 - an investing activity.
 - an operating activity.

Ans: A KP 1 BT: K Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

27. Which one of the following is considered an operating activity?
- Payment to a vendor for supplies.
 - Purchase of company trucks for cash.
 - Payment of dividends to shareholders.
 - Issuing stock to investors.

Ans: A KP 1 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

- 28.** Smith Corp. earned \$300,000 profit during 2015. On which financial statement(s) will the exact dollar amount of the profit be clearly stated?
- Statement of shareholders' equity and income statement.
 - Income statement only.
 - Balance sheet and income statement.
 - Statement of shareholders' equity, income statement, and the balance sheet.

Ans: A KP 1 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

- 29.** On which financial statements will you find a company's financial position at a specific point in time?
- All financial statements combined.
 - Income statement and balance sheet.
 - Balance sheet and statement of shareholders' equity.
 - Balance sheet only.

Ans: D KP 2 BT: C Difficulty: Moderate TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

- 30.** Why are liabilities separated into current and long-term?
- Users want to know which amounts will be paid using current assets.
 - Because current and long-term classifications are just common sense.
 - This format helps a company determine how much profit was made.
 - The SEC requires companies to do so.

Ans: A KP 2 BT: C Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

- 31.** Which one of the following statements is true?
- A company's own stock is its most liquid asset.
 - Profits are normally kept in a company's retained earnings until distributed as dividends.
 - Long-term investments will be used to pay current liabilities.
 - Current assets have no physical substance.

Ans: B KP 2 BT: K Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

- 32.** Cash reported on a company's balance sheet represents
- the profit a company made during the current year.
 - the amount the President of the Company has in his or her personal account.
 - the amount collected from customers during the current year less the amount paid for expenses.
 - the currency a company has access to at the balance sheet date.

Ans: D KP 2 BT: K Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

- 33.** The amount a company expects to collect from its customers is:
- accounts receivable.
 - short-term equity securities.
 - inventory.
 - accounts payable.

Ans: A KP 2 BT: K Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

- 34.** As used in accounting, “notes” may be reported:
- only as company debt offerings.
 - only as assets on the balance sheet.
 - as either assets or liabilities.
 - on the income statement or the balance sheet.

Ans: C KP 2 BT: K Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

- 35.** Property, plant and equipment may include which of the following?
- Intangible assets and land.
 - Inventory and equipment.
 - Buildings and cash.
 - Land and office buildings.

Ans: D KP 2 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

- 36.** On the balance sheet, a company should report the cost of intangible assets:
- in the current assets section.
 - as an amount owed to shareholders.
 - as an amount that is estimated by the CFO.
 - at acquired cost less any accumulated amortization.

Ans: D KP 2 BT: K Difficulty: Moderate TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

- 37.** A partnership and a corporation differ in that:
- a partnership is a legal entity, while a corporation is not.
 - the equity sections of partnership and corporation balance sheets report different items.
 - partnerships always have more cash than corporations.
 - a corporation has an income statement and a partnership does not.

Ans: B KP 2 BT: K Difficulty: Difficult TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

38. Below are several accounts from Norel Company's accounting records.

Total assets, end of year	\$110,000
Total liabilities, end of year	36,000
Contributed capital, end of year	12,000
Retained earnings, beginning of year	18,000
Dividends for the period	31,000
Net income	75,000

The amount of retained earnings at the end of the year is:

- \$34,000.
- \$40,000.
- \$62,000.
- \$64,000.

Ans: C KP 2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

Solution: $\$18,000 + 75,000 - \$31,000 = \$62,000$
or $\$110,000 - \$36,000 - \$12,000 = \$62,000$

39. The most common revenue account is:

- cash.
- sales.
- shareholders' equity.
- liabilities.

Ans: B KP 2 BT: K Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

40. Your bank loaned ten million dollars to Hamilton Stores to finance the construction of a manufacturing plant. In which section of Hamilton's statement of cash flows would you be able to determine whether the company used the cash to build the new plant?

- Operating activities
- Owner activities
- Financing activities
- Investing activities

Ans: D KP 1 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

41. Most investors believe that the statement of cash flows is

- a useful source of information regarding the cash flow of an entity.
- the only statement in an annual report whose results correlates to stock price value.
- too complicated.
- a useful measure of a company's profit.

Ans: A KP 2 BT: K Difficulty: Moderate TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

42. The amount reported on a company's balance sheet as retained earnings is the same as the amount reported on the company's:
- income statement as net income.
 - statement of shareholders' equity as beginning retained earnings.
 - statement of cash flows as cash received from operating activities.
 - statement of shareholders' equity as ending retained earnings.

Ans: D KP 2 BT: C Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

43. Which one of the following is **not** an asset?
- A company's equity in the common stock of another company.
 - A company's trademarked name for a process.
 - Retained earnings.
 - Notes receivable.

Ans: C KP 2 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Reporting

44. Given below are several accounts from Caterpillar Company's accounting records.

Cash	\$ 15,000
Accumulated depreciation	7,000
Retained earnings, beginning of year	22,000
Contributed capital	25,000
Patents	2,000
Dividends	5,000

Net income for the year was \$40,000. How much is total shareholders' equity at the end of the year?

- \$86,000.
- \$88,000.
- \$87,000.
- \$82,000.

Ans: D KP 2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

Solution: $\$22,000 + \$25,000 - \$5,000 + \$40,000 = \$82,000$

45. Seuss Company determined its total sales were \$500,000, salaries expense was \$210,000, dividends paid were \$15,000, rent expense was \$25,000, other operating expenses were \$13,000, and customers still owed \$4,000 at the end of the year. How much is net income for the year?
- \$267,000.
 - \$252,000.
 - \$263,000.
 - \$530,000.

Ans: B KP 2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

Solution: $\$500,000 - \$210,000 - \$25,000 - \$13,000 = \$252,000$

46. The information below was taken from the 2015 annual report of Jena Corporation.

	2015	2014	2013
Beginning cash balance	\$ 12,000	?	\$7,000
Net cash flow from operating activities	7,987	?	9,100
Net cash flow from investing activities	2,450	4,330	?
Net cash flow from financing activities	?	(9,612)	(7,500)
Ending cash balance	\$13,000	?	\$12,500

Which of the following is the missing amount for the net cash flow from investing activities for 2013?

- \$3,900
- \$9,950
- \$19,830
- \$2,450

Ans: A KP 1,2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

47. The information below was taken from the 2015 annual report of Jena Corp.

	2015	2014	2013
Beginning cash balance	\$ 12,000	?	\$7,000
Net cash flow from operating activities	7,987	?	9,100
Net cash flow from investing activities	2,450	4,330	?
Net cash flow from financing activities	?	(9,612)	(7,500)
Ending cash balance	\$13,000	?	\$12,500

Which of the following is the missing amount for the beginning cash balance for 2014?

- \$5,925
- \$8,741
- \$12,500
- \$5,282

Ans: C KP 1,2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

48. The information below was taken from the 2015 annual report of Jena Corp.

	2015	2014	2013
Beginning cash balance	\$ 12,500	?	\$7,000
Net cash flow from operating activities	7,987	?	9,100
Net cash flow from investing activities	2,450	4,330	?
Net cash flow from financing activities	?	(9,612)	(7,500)
Ending cash balance	\$13,000	?	\$12,500

Which of the following is the missing amount for the net cash flow from operating activities for 2014?

- \$8,110
- \$4,782
- \$8,475
- \$3,874

Ans: B KP 1,2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

49. The information below was taken from the 2015 annual report of Jena Corp.

	2015	2014	2013
Beginning cash balance	\$12,000	?	\$7,000
Net cash flow from operating activities	7,987	?	9,100
Net cash flow from investing activities	2,450	4,330	?
Net cash flow from financing activities	?	(9,612)	(7,500)
Ending cash balance	\$13,000	?	\$12,500

Which of the following is the missing amount for the ending cash balance for 2014?

- \$2,759
- \$7,158
- \$12,703
- \$12,000

Ans: D KP 1,2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

50. The information below was taken from the 2015 annual report of Jena Corp.

	2015	2014	2013
Beginning cash balance	\$12,000	?	\$7,000
Net cash flow from operating activities	7,987	?	9,100
Net cash flow from investing activities	2,450	4,330	?
Net cash flow from financing activities	?	(9,612)	(7,500)
Ending cash balance	\$13,000	?	\$12,500

Which of the following is the missing amount for the net cash flow from financing activities for 2015?

- (\$21,994)
- (\$9,437)
- (\$1,120)
- (\$14,085)

 AICPA BB: Critical Thinking AICPA FN: Reporting

2. For each item numbered 1 through 6 below, identify which accounting element(s) listed in **A** through **H** each statement describes. You may use each letter more than once or not at all.

- Accounting Elements**
- A. Assets
 - E. Revenues
 - B. Liabilities
 - F. Expenses
 - C. Contributed capital
 - G. Net income
 - D. Retained earnings
 - H. Dividends

1.	Total past earnings not distributed to the owners
2.	Inflow of assets from the regular operating activities
3.	Obligations which must be met at some future date
4.	That which will be used to generate future economic benefits
5.	The net growth during a period of time measured as revenues less expenses
6.	Amount invested by equity investors

Solution:
 1. D 2. E 3. B 4. A 5. G 6. C

SHORT PROBLEMS

1. Given below are several accounts from Kramer Company's accounting records.

Cash	\$12,500
Accumulated depreciation	8,000
Retained earnings, beginning of year	17,000
Contributed capital	14,000
Patents	3,000
Dividends	3,000

Net income for the year was \$30,000. How much is total shareholders' equity at the end of the year?

Solution:

$$\$14,000 + 17,000 - \$3,000 + \$30,000 = \$58,000$$

KP 2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

2. Below are several amounts from Netcom Company's accounting records. Answer the questions that follow.

Total assets, end of year	\$190,000
Total liabilities, end of year	88,000
Contributed capital, end of year	20,000
Retained earnings, beginning of year	65,000
Dividends for the period	15,000
Net income	32,000

- A. Calculate the amount of retained earnings at the end of the year.
B. If revenue amounts to \$200,000, how much is 'total expenses'?
C. How do you know the company has been profitable since it began operations?

Solution:

A. $\$65,000 + \$32,000 - \$15,000 = \$82,000$

B. $\$200,000 - X = \$32,000$
Expenses = X = \$168,000

- C. Retained earnings, which represents the total profits since the company began operations, less all amounts distributed as dividends, has a positive balance.

KP 2 BT: AN Difficulty: Moderate TOT: 5 min. AACSB: Analytic, Communication
AICPA BB: Critical Thinking AICPA FN: Measurement

3. Following are several items from Arbor Company’s financial statements. Use this information to calculate the amounts for the questions that follow.

Cost of goods sold	\$2,400
Sales revenue	8,600
Operating expenses	500
Income taxes	600
Dividends	400
Accounts receivable	800

- A. Calculate the dollar amount of net income.
- B. How much is inventory expense?
- C. Was the company profitable during the current year? How do you know?

Solution:

- a. $\$8,600 - \$2,400 - \$500 - \$600 = \$5,100$
- b. $\$2,400$
- c. Yes. The amount of expenses is less than the amount of revenue.

KP 2 BT: AN Difficulty: Moderate TOT: 4 min. AACSB: Analytic, Communication

4. At the beginning of 2015, Kristol Company sold stock and began operations. Information from Kristol’s accounting records for the year ending December 31, 2015, follows:

Sales	\$510,000
Selling expenses	220,000
Cost of goods sold	190,000
Dividends	100,000
General and administrative expenses	50,000
Contributed capital	60,000

- A. Circle the names of any accounts above that **would not** be reported on the income statement.
- B. Determine the amount of net income.

Solution:

- a. Circled accounts should be: Dividends and Contributed Capital
- b. $\$510,000 - \$220,000 - \$190,000 - \$50,000 = \$50,000$

KP 2 BT: AN Difficulty: Moderate TOT: 4 min. AACSB: Analytic

5. The following are account balances of Phineas Company on 12/31/15.

Accounts payable	\$ 2,000
Accounts receivable	7,000
Buildings and equipment	54,000
Contributed capital	20,000
Bonds payable	15,300
Cash	8,800
Retained earnings	17,000
Accumulated depreciation	(24,000)
Inventory	5,500
Patents	3,000

Prepare a classified balance sheet for Phineas Company on December 31, 2015.

Solution:

Phineas Company
Classified Balance Sheet
December 31, 2015

Assets

Current assets:

Cash	\$ 8,800	
Accounts receivable	7,000	
Inventory	<u>5,500</u>	
Total current assets		\$21,300

Property, plant, and equipment:

Buildings and equipment	\$54,000	
Less: Accumulated depreciation	<u>24,000</u>	
Total property, plant, and equipment		30,000

Intangible assets:

Patents	<u>3,000</u>	
---------	--------------	--

Total assets		<u><u>\$54,300</u></u>
--------------	--	------------------------

Liabilities & Shareholders' Equity

Current liabilities:

Accounts payable	\$ <u>2,000</u>	
Total current liabilities		\$ 2,000

Long-term liabilities:

Bonds payable	<u>15,300</u>	
Total long-term liabilities		15,300

Shareholders' equity:

Contributed capital	\$20,000	
Retained earnings	<u>17,000</u>	
Total shareholders' equity		<u>37,000</u>

Total liabilities & shareholders' equity		<u><u>\$54,300</u></u>
--	--	------------------------

6. The following is the balance sheet of Able Corporation immediately prior to deciding how to finance the purchase of a \$300 addition to its building.

Able Corporation Balance Sheet December 31, 2015	
<u>Assets</u>	
Cash	\$ 310
Accounts receivable	260
Building	380
Land	<u>370</u>
Total assets	<u>\$1,320</u>
<u>Liabilities and Shareholders' Equity</u>	
Accounts payable	\$ 190
Long-term bonds payable	620
Contributed capital	340
Retained earnings	<u>170</u>
Total liabilities & shareholders' equity	<u>\$1,320</u>

The bonds payable contract agreement requires current assets to be twice as much as current liabilities. Assume the \$300 addition to the building is to be paid in cash and financed by issuing more stock. Calculate and explain the maximum cash that Able can pay and still honor its debt agreement.

Solution: Able's current liabilities are \$190. Under the bond agreement, its current assets must be at least \$380. If Almond used \$190 of cash to purchase the building addition, then it would have the \$380 of current assets required by the debt covenant ($\$190 \times 2$). Therefore, Able can pay \$190 and issue stock for \$110 in order to finance the building project.

Use the information that follows concerning Ulrich Computer for the year ending December 31, 2015 for problems 7 through 10.

Several accounts and amounts from the financial statements of Ulrich Computer appear below for the year ending December 31, 2015.

Cash	\$ 11,000
Sales Revenue	140,000
Notes Receivable, 6-month	90,000
Cost of goods sold	65,000
Taxes Payable	31,000
Salaries Expense	8,000
Accounts Receivable	34,000
Dividends	42,000
Equipment	150,000
Accounts Payable	8,000
Contributed Capital	30,000
Retained Earnings	40,000
Rent and Utilities Expense	4,000
Income Tax Expense	20,000
Inventory	21,000

7. What is the total amount owed to Ulrich by its customers at the end of 2015?

Solution: \$34,000

KP 2 BT: AN Difficulty: Easy TOT: 1 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

8. Calculate total expenses for Ulrich.

Solution:

$\$65,000 + \$8,000 + \$4,000 + \$20,000 = \$97,000$

KP 2 BT: AN Difficulty: Moderate TOT: 3 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

9. Calculate Ulrich's total current assets.

Solution:

$\$11,000 + \$34,000 + \$90,000 + \$21,000 = \$156,000$

KP 2 BT: AN Difficulty: Moderate TOT: 3 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

10. How much must Ulrich pay out during its next accounting period for amounts owed?

Solution:

$\$8,000 + \$31,000 = \$39,000$

KP 2 BT: AN Difficulty: Moderate TOT: 2 min. AACSB: Analytic
AICPA BB: Critical Thinking AICPA FN: Measurement

11. Below is all of the account information from Chamber Company's balance sheet, with the exception of Retained Earnings.

Cash	\$13,000
Inventory	16,000
Equipment	51,000
Accounts Payable	17,000
Long-term Payable	10,000
Contributed capital	30,000

Using this information, please calculate the following:

- A. The total amount of retained earnings for Chamber Company.
B. The total amount of shareholders' equity for the company at the end in the year.

Solution:

A. $(\$13,000 + \$16,000 + \$51,000) - \$17,000 - \$10,000 - \$30,000 = \$23,000$

B. $\$30,000 + \$23,000 = \$53,000$

15. The following is the balance sheet of Columbus Corporation immediately prior to deciding how to finance the purchase of an additional \$210,000 parcel of land. Answer the question that follows.

Columbus Corporation	
Balance Sheet	
December 31, 2015	
<u>Assets</u>	
Cash	\$ 180,000
Accounts receivable	60,000
Land	<u>270,000</u>
Total assets	<u>\$510,000</u>
<u>Liabilities and Shareholders' Equity</u>	
Accounts payable	\$ 90,000
Contributed capital	250,000
Retained earnings	<u>170,000</u>
Total liabilities & shareholders' equity	<u>\$510,000</u>

REQUIRED: Columbus will finance the \$210,000 investment in land by issuing either \$210,000 of common stock or using \$210,000 of additional accounts payable that will be due in 90 days. Indicate which method of financing is preferable for Columbus. Consider the effects on short-term solvency positions.

Solution: If Columbus financed the land through accounts payable, its current liabilities would exceed its current assets by \$60,000. This would question Columbus's capability to pay its current liabilities when they are due. However, if Columbus financed the investment in land by issuing common stock, its current assets would exceed its current liabilities by \$150,000. This would enhance its short-term solvency position. Therefore, Columbus should issue common stock to finance the purchase of land.

KP 2 BT: AN Difficulty: Difficult TOT: 8 min. AACSB: Analytic, Communication, Reflective AICPA BB: Critical Thinking AICPA FN: Measurement, Decision modeling

SHORT ESSAY QUESTIONS

1. Describe operating activities.

Solution: Operating activities involve the sale of goods and services and the related cost of providing the goods and services. These activities produce additional capital that can be reinvested in producing assets, used to pay debt, or distributed to the owners in the form of dividends.

KP 1 BT: K Difficulty: Easy TOT: 2 min. AACSB: Analytic, Communication
AICPA BB: Critical Thinking AICPA FN: Reporting

2. Which business activity occurs first for a business? Why does this business activity occur first?

Solution: Financing activities typically occur first in a business. A business must acquire cash or other operating capital before any investments can be made.

KP 1 BT: C Difficulty: Easy TOT: 2 min. AACSB: Analytic, Communication
AICPA BB: Critical Thinking AICPA FN: Reporting

3. What business aspect does the income statement measure?

Solution: The income statement measures operating performance over a particular period.

KP 1 BT: C Difficulty: Easy TOT: 1 min. AACSB: Analytic, Communication
AICPA BB: Critical Thinking AICPA FN: Measurement

4. Which asset is more liquid, inventory or accounts receivable? Why?

Solution: Since amounts in the Accounts Receivable account represent inventory that is already sold, this account will generate cash more quickly than inventory that has not yet been sold. Therefore, accounts receivable is more liquid than inventory.

KP 2 BT: C Difficulty: Moderate TOT: 2 min. AACSB: Analytic, Communication
AICPA BB: Critical Thinking AICPA FN: Measurement

5. What business aspect does the statement of shareholders' equity measure?

Solution: The statement of shareholders' equity measures changes in 1) the contributed capital accounts, representing the value of owners' investments in the business, and in 2) the retained earnings account, which measures the extent to which the business reinvests its earnings and pays dividends.

KP 1 BT: C Difficulty: Moderate TOT: 2 min. AACSB: Analytic, Communication
AICPA BB: Critical Thinking AICPA FN: Measurement

Use the information provided from Haloid Company's accounting records to answer questions 6 and 7.

For the Years Ended December 31, 2015, and 2014		
<u>Assets</u>	<u>2015</u>	<u>2014</u>
Cash	\$ 80	\$60
Accounts receivable	40	40
Short-term investment in property	40	60
Property, plant, and equipment	350	310
Total assets	<u>\$510</u>	<u>\$470</u>
<u>Liabilities and Shareholders' Equity</u>		
Accounts payable	\$ 85	\$90
Contributed capital	310	300
Retained earnings	115	80
Total liabilities & shareholders' equity	<u>\$510</u>	<u>\$470</u>
<u>Income Statement:</u>		
Sales revenue	\$850	
Expenses	800	
Net Income	<u>\$ 50</u>	

6. How is it possible that Haloid reports "property" in two different places on its balance sheet?

Solution: 'Short-term investment in property' is property that Haloid owns with the intention of selling in the future. However, property in 'property, plant, and equipment' is space that is being used for "supporting" the operations in Haloid's business.

KP 2 BT: C Difficulty: Moderate TOT: 5 min. AACSB: Analytic, Communication, Reflective AICPA BB: Critical Thinking AICPA FN: Reporting

7. Comment on the following statement: "On December 31, 2015, Haloid's accounts payable exceeds its cash by \$5. If Haloid needs additional money to pay its accounts payable, it can use the \$115 stashed in its retained earnings".

Solution: The amount in the retained earnings account does not represent stashes of money or other tangible items. This amount simply communicates that Haloid earned and retained \$115 of income in its business since it began operations. The difference between assets and liabilities is total shareholders' equity. Retained earnings is part of shareholders' equity. It represents earnings retained in a business—a residual amount. It is not cash.

KP 2 BT: E Difficulty: Difficult TOT: 8 min. AACSB: Analytic, Communication, Reflective AICPA BB: Critical Thinking AICPA FN: Decision modeling

9. Explain the concept of liquidity.

Solution: Liquidity is a representation of how close an asset is to cash. Assets are listed in order of liquidity on the balance sheet, with the most liquid assets first. Since cash is the most liquid asset, it is presented as the first item in the asset section of the balance sheet.

KP 2 BT: C Difficulty: Easy TOT: 2 min. AACSB: Analytic, Communication AICPA BB: Critical Thinking AICPA FN: Measurement

10. Give an example of a prepaid expense. Why would a company use this account?

Solution: Prepaid expenses may include items such as prepaid rent, prepaid insurance, and other amounts of which payment must be made up front.

KP 2 BT: C Difficulty: Moderate TOT: 2 min. AACSB: Analytic, Communication
AICPA BB: Critical Thinking AICPA FN: Reporting

11. What type of assets are included in short-term investments?

Solution: Short-term investments include stock, bonds, and similar investments. Generally these securities are readily marketable and are intended by management to be sold within a short period of time, usually less than one year.

KP 2 BT: K Difficulty: Moderate TOT: 2 min. AACSB: Analytic, Communication
AICPA BB: Critical Thinking AICPA FN: Reporting

12. What is unique about the way plant and equipment appear on the balance sheet?

Solution: Plant and equipment includes the actual costs of acquiring assets such as warehouses, office buildings, equipment, machinery, vehicles, etc. In the balance sheet, total accumulated depreciation is shown as a deduction from the cost of the plant and equipment. The balance in the accumulated depreciation account represents the total cost of the plant and equipment that has been transferred to the income statement (expensed) as it represented an allocation of the cost used up that related to past accounting periods.

KP 2 BT: C Difficulty: Moderate TOT: 4 min. AACSB: Analytic, Communication
AICPA BB: Critical Thinking AICPA FN: Reporting

13. Describe how the equity sections of balance sheets differ for each of the three types of business entities.

Solution: The shareholders' equity section of the balance sheet for corporations consists of two components—contributed capital and retained earnings. Partnerships have one capital account for each owner in the owners' equity section of the balance sheet. A proprietorship has only one capital account. Neither a partnership nor a proprietorship has a retained earnings account.

KP 2 BT: C Difficulty: Moderate TOT: 5 min. AACSB: Analytic, Communication
AICPA BB: Critical Thinking AICPA FN: Reporting

14. Why would a company use a notes receivable account?

Solution: A notes receivable account arises because companies accept notes in exchange for a sale with extended credit terms. Notes represent amounts that customers or employees have agreed to repay. Notes typically have an interest component.

KP 2 BT: C Difficulty: Easy TOT: 2 min. AACSB: Analytic, Communication

AICPA BB: Critical Thinking AICPA FN: Reporting

15. What is the account, *Accounts Payable*, used for?

Solution: Accounts payable represents the amount of money a company expects to pay its vendors. The payables arise from the purchase of supplies from vendors/suppliers.

KP 2 BT: C Difficulty: Easy TOT: 2 min. AACSB: Analytic, Communication
AICPA BB: Critical Thinking AICPA FN: Reporting

16. Describe how the amount of net income relates to the balance sheet.

Solution: The balance sheet reports an item called retained earnings that represents an accumulation of all the profits earned by the company since operations began, less all the dividends paid out to shareholders. Net income for the current period is added and dividends declared are subtracted from the beginning retained earnings amount to determine the ending balance of retained earnings, which in turn is reported on the balance sheet.

KP 2 BT: C Difficulty: Moderate TOT: 4 min. AACSB: Analytic, Communication
AICPA BB: Critical Thinking AICPA FN: Reporting

17. Where in a company's financial statements would you locate the 'book value' of the company?

Solution: The dollar amount reported as total shareholders' equity represents the net book value of the company. Shareholders' equity is found on the balance sheet. To calculate the book value, subtract liabilities from assets.

KP 2 BT: C Difficulty: Moderate TOT: 3 min. AACSB: Analytic, Communication
AICPA BB: Critical Thinking AICPA FN: Reporting

18. Which group of financial statement users would be most concerned with the amount of a company's total current assets and current liabilities?

Solution: Creditors, such as bankers in other lenders, would be very interested in the liquidity of a company. Comparing the amount of current assets with current liabilities is a common analysis tool used by those interested in liquidity. If a company has more current liabilities than current assets, it is possible the company will not be able to pay its current bills when they come due.

KP 2 BT: C Difficulty: Moderate TOT: 3 min. AACSB: Analytic, Communication, Reflective
AICPA BB: Critical Thinking AICPA FN: Measurement

19. Which assets on a company's balance sheet have no physical substance? Explain.

Solution: Intangible assets have no physical substance. They are reported as long-term assets on the balance sheet and represent the legal right to produce and sell certain products. Like other assets, they represent a potential future benefit for the company.

20. A company sold 10 widgets. How will the amounts the company reports as 'Sales' differ from amounts reported as 'Cost of Goods Sold'?

Solution: The amount reported as sales represents the dollar amount for which the widgets were sold to the customers. Cost of goods sold represents the original cost paid by the company to acquire the inventory item. The difference between the dollar amount of sales and the dollar amount of cost of goods sold represents gross profit for the company.

21. What concerns might you have if you examined a company's balance sheet and found a negative amount in retained earnings?

Solution: A negative amount in retained earnings is common for young companies because it often takes several years to become profitable. Retained earnings may also decline and produce a negative balance (if allowed under the respective state laws) if a company pays large dividends. If the dollar amount in retained earnings is negative because of continual losses, there should be a cause for concern.

22. Distinguish between the amounts reported on the income statement compared to the amounts reported on the statement of cash flows.

Solution: Amounts reported on the income statement are revenues and expenses. These amounts reflect general asset and liability inflows and outflows. The amounts reported on the statement of cash flows include only the cash received and the cash paid out.

- 23.** Explain the difference between net income and cash flow from operations.

Solution: Net income, reported on the income statement, consists of revenues and expenses or more general asset and liability inflows and outflows, that may not necessarily include cash. Cash flows from operations, reported on the statement of cash flows, include only the cash inflows and outflows.
