foreign direct production (FDP).

D)

D)

FORM 1

- 45) Throughout the 1990s, the amount of foreign direct investment directed at both developed and developing nations increased dramatically. This trend reflects
  - A) a slowdown in global economic activity.
  - B) the increasing share of the United States in the total FDI stock.
  - C) the decline in cross-border flows of foreign direct investment. D) the increasing internationalization of business corporations.
- **46)** Which country has been the largest recipient of foreign direct investment and, in 2020, received about \$250 billion in inflows?
  - A) Brazil
  - B) Russia
  - C) India
  - D) China
- 47) Procter & Gamble is a multinational enterprise (MNE), which is a firm that
  - A) transfers its products to multiple countries.
  - B) owns business operations in more than one country.
  - C) does most of its business on the Internet. D) lists its securities on a public exchange.
- **48)** Since the 1960s, whatever has been a notable trend in the demographics of the multinational enterprise?
  - A) the decline of multinational companies in the manufacturing sector
  - B) the growth of government-owned multinational enterprises
  - C) the decline of non-U.S. multinationals
  - D) the growth of mini-multinationals

- 49) In the last two decades, Latin American countries such as Brazil, Mexico, and Chile have
  - A) embraced communist principles.
  - B) promoted government ownership of enterprises.
  - C) experienced increasing debt and inflation. D) welcomed foreign investment.
- **50)** Whatever is a risk associated with globalization?
  - A) restrictions on competition
  - B) global financial contagion
  - C) excessive market regulation
  - D) differentiation of markets
- 51) The rise in the number of mini-multinationals means that
  - A) small businesses are becoming increasingly involved in international trade and investment.
  - B) it is increasingly difficult to enter the large multinational market.
  - C) countries are working together to minimize MNE influence. D) there is greater state involvement in industry.
- 52) The downside of increased globalization is
  - A) global financial contagions are less likely.
  - B) a severe crisis in one region can affect the entire globe.
  - C) one nation may become too powerful.
  - D) the potential for increased exploitation of undeveloped nations by developed nations.
- 53) During the past two decades, change in Latin America has been characterized by

A)	an increase in debt.
B)	hyperinflation.
C)	the sale of state-owned enterprises to private investors. D) protests against foreign
investr	ment.

- 54) If China continues to move toward greater free market reforms it
  - A) may move from being an industrial superpower to a struggling economy.
  - B) will likely see a decrease in GDP per capita.
  - C) may move from a third-world business giant to an industrial superpower.
  - D) will likely give global market share to Western and Japanese enterprises.
- 55) To be classified as an MNE, a company must have productive activities in at least countries.
  - A) two
  - B) three
  - C) ten
  - D) twenty
- **56)** Supporters of globalization maintain that the apparent decline in real wage rates of unskilled workers
  - A) is due to technological changes and automation that create greater demand for skilled workers.
  - B) is due to the migration of low-wage manufacturing jobs offshore.
  - C) can be checked by increasing government ownership of enterprises. D) can be checked by limiting free trade and foreign investment.
- 57) Several studies published by the Organisation for Economic Co-operation and Development (OECD) noted that

- A) the real household income of unskilled workers in the United States increased more in comparison to that of skilled workers.
- B) in almost all countries real income levels declined over the 20-year period studied.
- C) the falling unemployment rates brought gains to low-wage workers and fairly broad- based wage growth.
- D) the gap between the poorest and richest segments of society in some OECD countries

had widened.

- **58)** A number of econometric studies have found consistent evidence of a hump-shaped relationship between income levels and pollution levels. According to this, as an economy grows and income levels rise
  - A) initially pollution levels remain low.
  - B) after a while, pollution levels decrease.
  - C) pollution levels also rise in proportion to the economic growth.
  - D) there is increasing industrialization, which leads to greater pollution.
- 59) The trade agreement known as NAFTA was passed only after
  - A) China agreed to establish a higher minimum wage.
  - B) the United States agreed to limit the number of jobs that could be outsourced.
  - C) Mexico committed to tougher enforcement of environmental protection regulations. D) Canada committed to establish new limits on FDI.
- 60) Globalization is criticized because it increases the power of
  - A) governments to own enterprises.
  - B) unskilled labor to form labor unions.
  - C) supranational organizations over nation-states.
  - D) nation-states to regulate markets and reduce competition.

- 61) The World Trade Organization has estimated that the developed nations of the world can raise global economic welfare by \$128 billion by
  - A) removing subsidies given to their agricultural producers.
  - B) increasing tariff barriers to trade in agriculture.
  - C) increasing outsourcing of manufacturing processes. D) reducing defense expenditure.
- 62) Which factor is viewed by large segments of the population in many countries as a detrimental effect of globalization?
  - A) job growth in industries under attack from foreign competitors
  - B) upward pressure on the wage rates of unskilled workers
  - C) environmental degradation
  - D) cultural isolationism of global media and MNEs
- While the hump-shaped relationship between income levels and pollution levels seems to hold across a wide range of pollutants, represent an important exception.
  - A) sulfur dioxide emissions
  - B) lead concentrations
  - C) carbon dioxide emissions
  - D) water quality standards
- 64) Based on several studies, the data suggest that real wages
  - A) for unskilled workers have decreased while real wages for skilled workers have increased.
  - B) for both skilled and unskilled labor have decreased.
  - C) for both skilled and unskilled labor have increased.

- D) for unskilled workers have increased while real wages for skilled worker have decreased.
- **65)** Why has little progress has been made toward the ambitious goals set at the 1992 Earth Summit in Rio de Janeiro?
  - A) China has shown a strong appetite to adopt tighter pollution controls.
  - B) Political cooperation in the U.S. Congress promotes domestic action.
  - C) There is a culture of denial in the United States.
  - D) Trade liberalization efforts have not been rolled back.

- 66) The two largest emitters of carbon dioxide are
  - A) China and the United States.
  - B) China and the United Kingdom.
  - C) Canada and the United States.
  - D) Mexico and the United States.
- 67) How would economists characterize the relationship between globalization and poverty?
  - A) Globalization has improved the lot of the world's poorer nations which has led to an overall decrease in poverty.
  - B) Globalization has caused the gap between rich and poor nations to shrink and poverty

levels to decline.

- C) Globalization has caused an increase in poverty as well as an increase in the gap between rich and poor nations.
- D) The movement of labor to developed nations because of globalization has contributed significantly to the increase in poverty.

- Which statement is correct of "highly indebted poorer countries" (HIPCs)?
  - A) About 100 nations fall in this category.
  - B) The average debt burden has never been more than 75 percent of the value of the HIPC's economy.
  - C) Servicing heavy debt leaves HIPCs with little left to invest in public infrastructure.
  - D) The annual cost of serving debt consumes about 30 percent of HIPC transfer earnings.
- **69)** Supporters of debt relief for HIPCs

- A) argue that free trade alone is sufficient to bring HIPCs out of poverty.
- B) argue that new democratic governments should be forced to honor debts incurred by previous corrupt predecessors.
- C) are energized by high-profile endorsements from Bono, the Dalai Lama, and Jeffrey Sachs.
- D) are working against the policies of the IMF and World Bank.
- 70) An international business, unlike a multinational enterprise,
  - A) needs to have manufacturing units in at least two foreign nations.
  - B) needs to manufacture products or provide services that target a global market.
  - C) need not customize its products to the requirements of national markets. D) need not invest directly in operations in other countries.
- 71) Exotic Collectibles is an international business. As such, it

- A) needs to have manufacturing units in at least two foreign nations.
- B) needs to manufacture products or provide services that target a global market.
- C) need not customize its products to the requirements of national markets. D) invests in international trade or investment.
- 72) Which statement is correct regarding an international business?
  - A) An international business needs to invest directly in operations in other countries.
  - B) An international business needs to have homogenous practices across countries.
  - C) An international business can be managed in the same way that a domestic business is managed.
- D) An international business must find ways to work within the limits imposed by government intervention.

- 73) How does managing an international business differ from managing a domestic business?
  - A) International managers are more experienced.
  - B) Countries differ in their cultures and systems.
  - C) Countries want to do business with their neighbors. D) Countries want to keep their transactions simple.
- 74) Which statement is characteristic of an international businesses?
  - A) All MNEs are international businesses.
  - B) Only firms that transfer products are international businesses.
  - C) Only firms that invest abroad are international businesses. D) All international businesses are MNEs.

75) becaus	_	ging an international business is different from managing a purely domestic bu	siness
treasur	A) B) C) D) ry.	countries prefer to keep business transactions between domestic partners. the range of problems confronted is wider and more complex. international businesses have an added layer of U.N. regulations. international transactions involve exchanging currencies through each count	try's
