ANSWER: a

Essay

44. Compare and contrast the stakeholder and shareholder models of corporate governance.

ANSWER: The shareholder model of corporate governance is founded on classic economic precepts, including the goal of maximizing wealth for investors and owners. The stakeholder model of corporate governance adopts a broader view of the purpose of business and answers to all stakeholders.

45. Why is ethical misconduct more difficult to overcome than poor financial performance?

ANSWER: Lost finances can be regained but loss of reputation and shareholder confidence could be deadly.

46. Discuss the difference between primary and secondary stakeholders in the stakeholder interaction model and give examples for each type.

ANSWER: The stakeholder interaction model acknowledges there are reciprocal relationships between the company and

Chapter 02 - Stakeholder Relationships, Social Responsibility, and Corporate Governance

several primary and secondary stakeholders. The model also acknowledges the dialogue between the company's internal and external environments. Primary stockholders are essential to the company's survival and include: employees, shareholders, suppliers, community, government regulatory agencies and customers. Secondary stakeholders are not essential to the company's survival and include: special interest groups, the mass media, competitors and trade associations.

47. Why do some businesspeople and scholars question whether ethics should have a role in business?

ANSWER: Many business people and scholars question the role of ethics and social responsibility in business. Legal and economic responsibilities are generally accepted as the most important determinants of performance. "If this is well done," say classic economic theorists, "profits are maximized more or less continuously and firms carry out their major responsibilities to society."

48. Discuss three corporate governance issues, why they are defined as issues, and how you would solve them. Use examples in your answer.

ANSWER: Students could choose from any of several topics listed in the text and in Table 2-4 Corporate Governance Topics on page 43. Most students will choose executive compensation as one topic since it was discussed frequently in the text. Compensation is an issue because most people believe executives are not worth millions of dollars in annual salary and bonuses. Students may cite JP Morgan's policy limiting executive pay to twenty times the pay of any other employee. There are several other issues including board composition, financial oversight, and shareholder rights.
