Terry must decide at the beginning of the year whether he wants to put as much as \$2,600 of his salary into the medical flexible spending account. Terry has excellent insurance through the company and is very healthy. He does not expect to have any medical expenses during the year. Terry does not itemize deductions. Should Curt recommend that Terry put the maximum in his health care flexible spending account? Why or why not?

ANS: No. Terry will be better off keeping his salary \$2,600 higher and paying tax on the salary, since he will likely have no WE medical costs to reimburse from a health care spending account during the year. If Terry has no medical expenses, he R: could lose part of the \$2,600 in the account after the end of the year.

131. During the tax year, Thomas and Yolanda received \$24,000 in Social Security benefits. The amount of their adjusted gross income for the year was \$2,000 and they received no tax-exempt interest income.

Calculate the amount of the Social Security benefits that Thomas and Yolanda must include in their gross income for the year.

ANSWER: **\$0**. Their modified adjusted gross income is less than the base amount required to have taxable Social Security.

132. During the current year, Margaret and John received \$24,000 in Social Security benefits. The amount of their adjusted gross income for the year before any Social Security income was \$140,000 and they received \$19,000 in tax-exempt income.

Explain the treatment of their Social Security income for tax purposes and the likely percentage of the Social Security income that will be taxable to Margaret and John.

AN Social Security income is partially taxed based on the taxpayer's modified adjusted gross income. Modified adjusted *SW* gross income includes adjusted gross income plus tax exempt interest plus half of the Social Security received. For *ER* low income taxpayers, no Social Security income is taxable. Higher income taxpayers must include 50 percent to 85 percent of the Social Security receipts in income. Given the high level of income reported by Margaret and John, it is safe to say they would have to include 85 percent of the Social Security payments in taxable income. To be certain, the IRS Social Security worksheet should be used to calculate the taxable amount.
