

Chapter 02 Test Bank

1. The belief that others are paying more attention to one's appearance and behavior than they actually are is referred to as the _____ effect.

- A. transparency
- B. audience
- C. spotlight**
- D. halo

APA Outcome: 1.1: Describe key concepts, principles, and overarching themes in psychology
Accessibility: Keyboard Navigation
Bloom's Level: Remember
Difficulty: Low
Learning Objective: Describe the spotlight effect and its relation to the illusion of transparency.
Page: 26
Topic: Spotlight Effect

Feedback: Spotlights and Illusions: What Do They Teach Us about Ourselves?

2. Chloe dyes her hair blue and goes to school. She assumes that the students will stare at her and comment on her hair color. However, only a few of her friends really notice her dyed hair. Which of the following psychological effects is best exemplified in this scenario?

- A. the lawn dart effect
- B. the observer effect
- C. the spotlight effect**
- D. the halo effect

APA Outcome: 1.3: Describe applications of psychology
Accessibility: Keyboard Navigation
Bloom's Level: Apply
Difficulty: High
Learning Objective: Describe the spotlight effect and its relation to the illusion of transparency.
Page: 26
Topic: Spotlight Effect

Feedback: Spotlights and Illusions: What Do They Teach Us about Ourselves?

3. A study by Gilovich et al. (2000) had college students wear T-shirts with singer Barry Manilow on them. They found that participants overestimated the degree to which other people would notice the T-shirt. Which of the following concepts did this study explore?

- A. the transparency effect
- B. the audience effect
- C. the spotlight effect**
- D. the halo effect

APA Outcome: 1.1: Describe key concepts, principles, and overarching themes in psychology
Accessibility: Keyboard Navigation
Bloom's Level: Remember
Difficulty: Low
Learning Objective: Describe the spotlight effect and its relation to the illusion of transparency.
Page: 26
Topic: Spotlight Effect

Feedback: Spotlights and Illusions: What Do They Teach Us about Ourselves?

4. The illusion that our concealed emotions leak out and can be easily read by others is referred to as the illusion of:

- A. transparency.**
- B. self-efficacy.
- C. knowledge.
- D. awareness.

APA Outcome: 1.1: Describe key concepts, principles, and overarching themes in psychology
Accessibility: Keyboard Navigation
Bloom's Level: Remember
Difficulty: Low
Learning Objective: Describe the spotlight effect and its relation to the illusion of transparency.
Page: 26
Topic: Illusion of Transparency

Feedback: Spotlights and Illusions: What Do They Teach Us about Ourselves?

5. Charlie contributes money to every charity program in his community even if he does not have ample resources. He fears that otherwise he may be labeled a miser. In reality, most members of his community do not notice whether Charlie contributes or not. Which of the following psychological effects is exemplified in this scenario?

- A. the false consensus effect
- B. the observer effect
- C. the spotlight effect**
- D. the halo effect

APA Outcome: 1.3: Describe applications of psychology

Accessibility: Keyboard Navigation

Bloom's Level: Apply

Difficulty: High

Learning Objective: Describe the spotlight effect and its relation to the illusion of transparency.

Page: 26

Topic: Spotlight Effect

Feedback: Spotlights and Illusions: What Do They Teach Us about Ourselves?

6. The fact that we usually attribute more responsibility to our partners than to ourselves when problems arise in a relationship is an example of how:

- A. self-interest colors our social judgment.**
- B. social surroundings affect our self-awareness.
- C. self-concern motivates our social behavior.
- D. social relationships help define our self.

APA Outcome: 1.2: Develop a working knowledge of psychology's content domains

Accessibility: Keyboard Navigation

Bloom's Level: Understand

Difficulty: Medium

Learning Objective: Describe the spotlight effect and its relation to the illusion of transparency.

Page: 28

Topic: Spotlight Effect

Feedback: Spotlights and Illusions: What Do They Teach Us about Ourselves?

7. In the study conducted by Savitsky and Gilovich (2003), public speakers who were informed about the illusion-of-transparency phenomenon felt:

- A. more nervous while speaking.
- B. better about their speech and appearance.**
- C. worse about their appearance while speaking.
- D. no different about their speech.

APA Outcome: 1.2: Develop a working knowledge of psychology's content domains

Accessibility: Keyboard Navigation

Bloom's Level: Understand

Difficulty: Medium

Learning Objective: Describe the spotlight effect and its relation to the illusion of transparency.

Page: 27

Topic: Illusion of Transparency

Feedback: Spotlights and Illusions: What Do They Teach Us about Ourselves?

8. Matthew gives a presentation to his interviewers. He is nervous, and he presumes that his nervousness is obvious to the interviewers. He fears that they would consider him an incompetent candidate. As a result, he becomes more nervous, his voice quivers, and his hands tremble. Matthew's rising nervousness is caused by:

- A. defensive pessimism.
- B. the false consensus effect.
- C. the illusion of transparency.**
- D. cognitive dissonance.

APA Outcome: 1.3: Describe applications of psychology

Accessibility: Keyboard Navigation

Bloom's Level: Apply

Difficulty: High

Learning Objective: Describe the spotlight effect and its relation to the illusion of transparency.

Page: 27

Topic: Illusion of Transparency

Feedback: Spotlights and Illusions: What Do They Teach Us about Ourselves?

9. The spotlight effect and the related illusion of transparency are two examples of the interplay between one's sense of _____ and one's social worlds.

- A. morality

- B. social judgment
- C. self**
- D. collectivism

APA Outcome: 1.1: Describe key concepts, principles, and overarching themes in psychology
Accessibility: Keyboard Navigation
Bloom's Level: Remember
Difficulty: Low
Learning Objective: Describe the spotlight effect and its relation to the illusion of transparency.
Page: 26
Topic: Self-Concept

Feedback: Spotlights and Illusions: What Do They Teach Us about Ourselves?

10. Which of the following terms denotes what we know and believe about ourselves?
- A. self-control
 - B. Schadenfreude
 - C. altruism
 - D. self-concept**

APA Outcome: 1.1: Describe key concepts, principles, and overarching themes in psychology
Accessibility: Keyboard Navigation
Bloom's Level: Remember
Difficulty: Low
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 28
Topic: Self-Concept

Feedback: Self-Concept: Who Am I?

11. _____ is defined as the beliefs about the self that organize and guide the processing of self-relevant information.
- A. Self-actualization
 - B. Self-schema**
 - C. Self-esteem
 - D. Self-realization

APA Outcome: 1.1: Describe key concepts, principles, and overarching themes in psychology
Accessibility: Keyboard Navigation
Bloom's Level: Remember
Difficulty: Low
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 29
Topic: Self-Concept

Feedback: Self-Concept: Who Am I?

12. In the context of psychology, _____ are mental templates by which we organize our worlds.
- A. attributes
 - B. efficacies
 - C. schemas**
 - D. perspectives

APA Outcome: 1.1: Describe key concepts, principles, and overarching themes in psychology
Accessibility: Keyboard Navigation
Bloom's Level: Remember
Difficulty: Low
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 29
Topic: Self-Concept

Feedback: Self-Concept: Who Am I?

13. Ron remembers Phil's birthday, which is in the same month as his, but fails to recall Alex's birthday, which is in a different month. Though both of them are his friends, Ron's ability to recall Phil's birthday but not Alex's can be best explained through the concept of:
- A. self-schema.**
 - B. social comparison.
 - C. Schadenfreude.
 - D. individualism.

APA Outcome: 1.3: Describe applications of psychology
Accessibility: Keyboard Navigation
Bloom's Level: Apply
Difficulty: High

Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 29
Topic: Self-Concept

Feedback: Self-Concept: Who Am I?

14. The extent to which one evaluates one's abilities and opinions by comparing oneself with others is called:
- A. comparative analysis.
 - B. competitive comparison.
 - C. social ranking.
 - D. social comparison.**

APA Outcome: 1.1: Describe key concepts, principles, and overarching themes in psychology
Accessibility: Keyboard Navigation
Bloom's Level: Remember
Difficulty: Low
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 29
Topic: Social Comparison

Feedback: Self-Concept: Who Am I?

15. Jonas has a group of friends in a social networking site. When any of his friends are on vacation in a foreign country and post pictures on the site, he feels bad about himself. To measure up to his friends, he often borrows money to take such vacations. Which of the following psychological phenomena is exemplified in this scenario?
- A. social balance
 - B. social comparison**
 - C. social entropy
 - D. social interface

APA Outcome: 1.3: Describe applications of psychology
Accessibility: Keyboard Navigation
Bloom's Level: Apply
Difficulty: High
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 29
Topic: Social Comparison

Feedback: Self-Concept: Who Am I?

16. Which of the following is an example of the use of social comparison?
- A. Matt feels he is satisfied with his life after meditating by himself.
 - B. Matt feels he is rich when his friends have a lower annual income.**
 - C. Matt feels he is smart when he is among a group of smart colleagues.
 - D. Matt feels he should take care of his health after he suffers a cardiac arrest.

APA Outcome: 1.3: Describe applications of psychology
Accessibility: Keyboard Navigation
Bloom's Level: Apply
Difficulty: High
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 29
Topic: Social Comparison

Feedback: Self-Concept: Who Am I?

17. An example of how social comparisons can actually breed misery, rather than satisfaction, is when we:
- A. underestimate others' appraisal against our own.
 - B. perceive other competitors to be at a disadvantage.
 - C. raise the standards by which we evaluate our own attainments.**
 - D. stop comparing ourselves with others doing even better.

APA Outcome: 1.2: Develop a working knowledge of psychology's content domains
Accessibility: Keyboard Navigation
Bloom's Level: Understand
Difficulty: Medium
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 29
Topic: Social Comparison

Feedback: Self-Concept: Who Am I?

18. When facing competition, we often protect our self-concept by perceiving:
- A. ourselves as superior to the competitor.

- B. the competitor as inefficient and disorganized.
- C. the competitor as disadvantaged in comparison to us.
- D.** the competitor as advantaged in comparison to us.

APA Outcome: 1.2: Develop a working knowledge of psychology's content domains
Accessibility: Keyboard Navigation
Bloom's Level: Understand
Difficulty: Medium
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 30
Topic: Social Comparison

Feedback: Self-Concept: Who Am I?

19. Under individualism, becoming an adult means _____.

- A. living with relatives
- B.** becoming self-reliant
- C. defining one's social, dependent self
- D. uniting with parents

APA Outcome: 1.1: Describe key concepts, principles, and overarching themes in psychology
Accessibility: Keyboard Navigation
Bloom's Level: Remember
Difficulty: Low
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 30
Topic: Self and Culture

Feedback: Self-Concept: Who Am I?

20. Our use of how we think others perceive us as a mirror for perceiving ourselves is described by sociologist Charles H. Cooley as:

- A. a self-fulfilling prophecy.
- B. self-realization.
- C. self-justification.
- D.** the looking-glass self.

APA Outcome: 1.1: Describe key concepts, principles, and overarching themes in psychology
Accessibility: Keyboard Navigation
Bloom's Level: Remember
Difficulty: Low
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 30
Topic: Self-Perception

Feedback: Self-Concept: Who Am I?

21. Giving priority to one's own goals over group goals and defining one's identity in terms of personal attributes rather than group identifications is the definition of:

- A. socialism.
- B. communism.
- C. collectivism.
- D.** individualism.

APA Outcome: 1.1: Describe key concepts, principles, and overarching themes in psychology
Accessibility: Keyboard Navigation
Bloom's Level: Remember
Difficulty: Low
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 30
Topic: Self and Culture

Feedback: Self-Concept: Who Am I?

22. Which of the following maxims best represents the concept of individualism?

- A. Two heads are better than one.
- B.** Be true to yourself.
- C. Father knows best.
- D. It takes a village to raise a child.

APA Outcome: 1.2: Develop a working knowledge of psychology's content domains
Accessibility: Keyboard Navigation
Bloom's Level: Understand
Difficulty: Medium

Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 34
Topic: Self and Culture

Feedback: Self-Concept: Who Am I?

23. After graduation, Noah decides to move out of his parents' home. He wants to establish an identity of his own and does not want to depend on his parents any longer. Noah tries to develop _____ in this scenario.
- A. social cohesion
 - B. social solidarity
 - C. an independent self**
 - D. an interdependent self

APA Outcome: 1.3: Describe applications of psychology
Accessibility: Keyboard Navigation
Bloom's Level: Apply
Difficulty: High
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 30
Topic: Self and Culture

Feedback: Self-Concept: Who Am I?

24. Giving priority to the goals of one's group, such as one's family or workplace, and defining one's identity accordingly is known as:
- A. individualism.
 - B. narcissism.
 - C. collectivism.**
 - D. hedonism.

APA Outcome: 1.1: Describe key concepts, principles, and overarching themes in psychology
Accessibility: Keyboard Navigation
Bloom's Level: Remember
Difficulty: Low
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 30
Topic: Self and Culture

Feedback: Self-Concept: Who Am I?

25. A person from a(n) _____ culture is more likely to attribute their success to their own personal efforts.
- A. collectivistic
 - B. individualistic**
 - C. narcissistic
 - D. egocentric

APA Outcome: 1.2: Develop a working knowledge of psychology's content domains
Accessibility: Keyboard Navigation
Bloom's Level: Understand
Difficulty: Medium
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Pages: 30-31
Topic: Self and Culture

Feedback: Self-Concept: Who Am I?

26. Identify a characteristic of collectivistic cultures.
- A. Collectivistic cultures disapprove of conformity.
 - B. Identity is social and defined by connections with others.**
 - C. Collectivistic cultures approve of egotism.
 - D. The illustrative motto is "To thine own self be true."

APA Outcome: 1.2: Develop a working knowledge of psychology's content domains
Accessibility: Keyboard Navigation
Bloom's Level: Understand
Difficulty: Medium
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 30
Topic: Self and Culture

Feedback: Self-Concept: Who Am I?

27. In the context of the varying political views and regions across a country, conservatives tend to be economic _____ ("don't tax or regulate me") and moral _____ ("legislate against immorality").

- A.** individualists; collectivists
- B. collectivists; individualists
- C. progressivists; traditionalists
- D. traditionalists; progressivists

APA Outcome: 1.1: Describe key concepts, principles, and overarching themes in psychology
Accessibility: Keyboard Navigation
Bloom's Level: Remember
Difficulty: Low
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
Page: 31
Topic: Self and Culture

Feedback: Self-Concept: Who Am I?

28. In the context of the varying political views and regions across a country, liberals tend to be economic _____ ("let's pass universal health care") and moral _____ ("keep your laws off my body").

- A. individualists; collectivists
- B.** collectivists; individualists
- C. progressivists; traditionalists
- D. traditionalists; progressivists

APA Outcome: 1.1: Describe key concepts, principles, and overarching themes in psychology
Accessibility: Keyboard Navigation
Bloom's Level: Remember
Difficulty: Low
Learning Objective: Understand how, and how accurately, we know ourselves and what determines our self-concept.
